## PREMIER PROMISES CANADA FREER TRADE

**Declares Bright and Cobden are His Models—  
Speaks Words of Encouragement and In-  
spiration to New Settlers**

(Special to the Times.)

Moose Jaw, Sask., Aug. 6.—Sir Wilfrid Laurier spent another busy day here yesterday. In the morning he again viewed the ripening grain. Later he met a deputation from the Western Associated Boards of Trade, including Winnipeg, Calgary, Saskatoon, Lethbridge, Brandon, Prince Albert, Regina and Moose Jaw, who asked for a government contribution to the Dominion exposition in the west, towards which the sum of \$2,500,000 is already assured. In the evening Sir Wilfrid took a turn at athletics. To the delight of a big crowd he agreed to attend a league ball game between Moose Jaw and Lethbridge. The Prime Minister pitched the first ball and briefly addressed the players.

Over 4,000 people crowded the large rink in the afternoon, where a public meeting was held. Wm. Grayson presided and over the entrance to the building was written "greeting," "shake," "We Are All Canadians."

Following an introductory address by W. E. Knowles, M. P., Premier Scott spoke briefly, alluding to the fact that it was Sir Wilfrid's closing meeting in Saskatchewan and congratulating the people of the province on the hearty and enthusiastic greeting given to the great Canadian.

E. M. Macdonald, discussing the declaration that the Conservatives had made by protection and would fight it out on that line. The statement was greeted by a storm of hisses. "If the Conservatives had been in power," said the speaker, "some sixty million dollars more would have been taken from the pockets of the people in protective tariffs."

"We want free trade," shouted a voice, and applause followed. Mr. Macdonald explained that a sudden breaking down of all tariff walls at the present time would mean direct taxation and a financial crisis. The government believed in making progress slowly and surely. He was convinced that the best course at present was a reasonable tariff, with relief from burdens on agricultural imple-

ments and other manufactured goods, from which the farmers had a just grievance, and the maintenance of the British preference.

Mr. Macdonald's reference to relief from taxation on agricultural implements was greeted with prolonged cheers.

Sir Wilfrid Laurier, on rising was greeted by an ovation. Herbert Snell, president of the Liberal Association, read an address of welcome. Having expressed his appreciation, the Premier referred to the growth of the west and took occasion to greet the new settlers in the district. He spoke in words of encouragement and inspiration to Canadian citizenship.

"We want you to aid us in making our country a great nation within the empire," was his appeal.

He dealt in this connection with the naval policy and its aspirations. He regretted appeals to prejudices.

"If," said Sir Wilfrid, "I find a saddle a question at any time with appeals to prejudice of any race or creed, I will resign my position."

As to the fiscal policy of the government, the Premier declared Bright and Cobden to be his models. "But we cannot to-day give you the full policy of Britain. The Motherland is a nation made; Canada is a nation in the making. We can give you freer trade. We have given you freer trade. We mean to give you freer trade, and I don't think it is going too far to say we ask that the government give still freer trade."

The announcement was greeted by tremendous cheers.

In conclusion, Sir Wilfrid expressed his thanks to the people of Saskatchewan for the reception given his party throughout the province. Particularly did he thank Conservatives, who had been most cordial.

Mr. Parvill followed with a short, vigorous address.

Then came Hon. George P. Graham, who closed the meeting with a discussion of the transportation problem. He pointed out that but for the expenditures on the Grand Trunk Pacific Canada had lived within her income and made all necessary improvements during the regime of the present government.

MR. SOCKEYE HAS ARRIVED.

## FARMERS AND THE TARIFF

**LONDON PRESS ON  
AGITATION IN WEST**

**Daily Chronicle Believes Reciprocity With States Would Benefit Whole of Empire**

(Special to the Times.)

London, Aug. 6.—The Daily Chronicle gives prominence to features of the western farmers' agitation against the tariff. Under the heading "Canada's revolt is a blow to Balfour. The bottom knocked out of protection," editorially the Chronicle is not surprised that farmers are urging a policy of reciprocity with the United States. Nature meant Canada and the United States to exchange commodities freely, but man in his stupid folly has erected obstacles to hinder that free exchange. Wise statesmanship would seek to lower and remove these obstacles.

There are some worthy people who fear reciprocity would tend to weaken the ties that bind Canada to the Mother Country. It is a foolish and unworthy fear. Canada, existing in her own right, and proud of her place in the British Empire, will never merge her identity in her gigantic neighbor. If from recognition of her economic interest she enters into reciprocal relation with the United States, we believe it will be not a bad but a good thing for the British Empire.

The Daily Express advises the champions of free trade to seek some other prop for the tottering tabernacle of their economic faith. The movement by western farmers is really a movement in the direction of Imperial preference. The Daily News, like the Chronicle, publishes an interview with "well known candidates" who give reasons why "the western revolt is bound to succeed."

The Morning Leader says there appears no sort of doubt now what it is Canadian farmers want. The murder is out. These Canadians are the rank-and-file Cobdenites.

## APACHE LYNCHED IN PARIS.

Hanged by Mob After He Had Shot Man in Street.

Paris, Aug. 6.—The authorities will to-day apprehend the members of a mob which lynched an Apache last night, striding him up to a tree.

A gendarme attempted to arrest the Apache in a street in the heart of the city. The outlaw fired on the officer and the ball killed a by-stander. Instantly a mob collected, and after hanging the Apache, as quickly dispersed.

## BOY DROWNED AT TACOMA.

Tacoma, Wash., Aug. 6.—The body of Frank, the 9-year-old son of Frank Fusterbauer, sr., who was drowned in the middle waterway yesterday, has been recovered to-day. The tide was out when the boy with several companions were wading yesterday and he is supposed to have stepped into a hole.

## IS ENGINEER'S HEAD TO FALL

**QUESTION BEING ASKED  
IN CITY HALL CIRCLES**

**Mayor Morley Conveys Intimation to Angus Smith—Latter Only in Office Short Time**

(Times Leased Wire.)

A report is current in city hall circles that the city engineer, Angus Smith, who assumed his position on April 5th last may shortly vacate that position.

The Times this morning ascertained the following facts respecting this situation: Some few days ago Mayor Morley asked the city solicitor to look into the matter of the validity of the appointment of Mr. Smith to the position of city engineer. What Mr. McDiarmid's report on the matter was is not known.

At the conclusion of last evening's meeting of the streets committee of the city council, Mayor Morley asked

CITY ENGINEER SMITH.

the aldermen present to remain, as he wished to communicate something to them privately. The reporters and the assistant city clerk were asked to retire and did so. It is understood that the mayor then raised the question of dealing with Mr. Smith, and that after a full discussion of the situation a decision was reached by the mayor and a number of those present to offer the engineer a year's salary and ask him for his resignation.

This morning Mayor Morley procured from the city clerk's office a copy of the letter appointing Mr. Smith to the position, and later called the latter into his office and had a long conference with him.

It has been ascertained that the mayor told Mr. Smith that the various civic works in progress were in worse shape than ever before, and that his

## CONCESSION BY KING ALFONSO

**NO INTERFERENCE  
WITH CATHOLIC WORSHIP**

**General Weyler Has Large Forces in Readiness to Quickly Suppress Any Disorder**

(Times Leased Wire.)

Madrid, Aug. 6.—The effect of King Alfonso's consultations with his English relatives is shown here today in the first concessions that the government has extended to the clericals since the controversy between the ministry and the Vatican began. The concession is a slight one, but it may be sufficient to prevent the anti-government demonstration planned for to-morrow throughout Spain.

The ministry has promised that no interference with Catholic worship to-morrow will be attempted. Other concessions are promised, provided no demonstration be made against the monarchy.

Fear is expressed here by leading supporters of the cabinet and King that the anti-clericals will join in an uprising if the government recedes from its plan of curtailing the power of the church.

Taking Precautions. San Sebastian, Aug. 6.—Unwilling to rely upon the promise of the clericals that no demonstration against the government will take place here to-morrow, General Weyler ordered the first royal reserves in the Biscayan district to be ready for emergency duty at San Sebastian.

Reinforcements, ordered into active service yesterday arrived here to-day. The commanding officer is detaching his troops in the principal towns of the Basque provinces with orders sternly to repress any incipient riots.

Thousands of visitors are in San Sebastian, despite the mayor's edict that all persons from the country side shall leave the city or run the risk of arrest should disorders occur to-morrow. The people generally are in a turbulent mood and predictions that a demonstration will take place are freely made.

## INVESTIGATION STOPPED.

(Special to the Times.) Montreal, Aug. 6.—The Millette charges against Elmanation lodge were followed up to-day and attracted a large crowd. The proceedings were suddenly brought to an end by injunction brought out by J. M. Fortier restraining the committee from proceeding with the investigation.

## BOAT'S FATALITY.

Glenbrook, Nev., Aug. 6.—Floating six miles off shore, the body of Mrs. J. Bowen, 61, of Seattle, who was drowned in Lake Tahoe after a mysterious disappearance, has been recovered. It is not known how the woman was thrown into the water, but from the condition of the boat in which she had been rowing and which was found near the shore, it is believed she lost her balance when the boat almost overturned.

## SIR WILFRID LAURIER IN RAILWAY WRECK

**Special Train Collides With Freight—Premier and  
Members of His Party Escape With  
Few Minor Bruises.**

(Special to the Times.)

Moosejaw, Aug. 6.—The Laurier special carrying the prime minister and his associates was wrecked between Belle Plains and Pense last night by colliding with through freight No. 71.

Sir Wilfrid Laurier and his party escaped injury, save for a few minor bruises not worth mentioning. The engineers all had sufficient time to jump before the impact, and the only man requiring medical attention is Conductor Ed. Cook, who has several broken ribs, besides other bruises.

The special train carrying Sir Wilfrid Laurier left Moosejaw at 3 p.m. with running rights over everything west bound. Engineer Frank Burgess was at the throttle and Conductor Cook in charge. Between Belle Plains and Pense, on a stretch of straight level track, they met freight 71 in charge of Conductor Kemp and Engineer Humble. Burgess was able to stop his lighter train before the collision occurred, but the heavier freight could not be stopped and crashed in. The engines locked together, one baggage car was smashed, a cook and porter slightly injured, as well as Conductor Cook.

The car containing newspaper reporters was at the rear of the second baggage car. No injury whatever is reported from this party more than trifling bruises, from having been thrown about among the typewriters and furniture.

The stateroom cars containing the Laurier party report nothing more serious than a severe jolt.

As soon as the wreck occurred Sir Wilfrid went forward personally to inquire as to injuries and damage.

The wreck train from Moosejaw carried to the scene General Superintendent Scully, who personally looked after the train. The cars were run back to Moosejaw, where the ambulance awaited Conductor Cook and took him home. About twenty car repair and service men set to work making repairs, and they will have everything in shape to proceed by 9 or 10 o'clock this morning.

The blame for the accident has not

been entirely fixed as yet, though it is reported unofficially that train 71 had left the last order point without securing orders O. K., or the orders must have been garbled in receiving in some way.

Local railway officials feel a great deal of regret that such an accident should have happened to the prime minister's train, and are taking every precaution to have their safety and comfort immediately restored.

The engineers of both trains are known as two of the most competent men on the road. Engineer Burgess is a man who has been told off to drive almost every notable party in the west, and has always held the highest trust in this way that could be reposed in him by the company. Engineer Humble, though not quite so well known, has always been considered a most capable and careful man at the throttle.

The Laurier special will again leave this morning as soon as provisioned and repaired, and Sunday will be spent at Battiford.

Arrival at Regina.

Regina, Aug. 6.—The Laurier special arrived this morning at 10:30 from Moosejaw with Engineer Hannah at the throttle. The train is now lying in the yards and leaves to-day for the north, the itinerary being proceeded with as though nothing had happened. To-morrow Sir Wilfrid will spend the day at Battiford.

All members of the party are suffering severely from shock, but no one was hurt.

Sir Wilfrid is reported to have been slightly cut by glass and Hon. George P. Graham had his knee slightly wrenched.

Interviewed, Sir Wilfrid refused to talk about the accident, but gave assurances that he is not in the slightest injured as a result of the wreck. As soon as the train stopped here he was off the platform with Senator Gibson and took a stroll about the city. On every hand he was the recipient of congratulations. Wires came in abundance and Sir Wilfrid had a busy hour in Regina.

Hon. George V. Graham did not leave the train this morning, but Sir Wilfrid assured reporters that Mr. Graham is not injured at all.

## KING ALFONSO HAS NARROW ESCAPE

**Topmast of Yacht Falls to Deck  
Near Spot Where His Majesty  
Stood**

(Times Leased Wire.)

Cowes, Isle of Wight, Aug. 6.—While King Alfonso, a party of Spanish and English officers and Sir Thomas Lipton, host of the Spanish monarch, were standing amidstships on Lipton's yacht, the Shamrock, one of the topmasts broke and fell to the deck.

King Alfonso became greatly agitated and uttered an exclamation that caused his hearers to believe that he thought the fall of the mast was not an accident. Those who saw the spar drop declare it was miraculous that none of the party was injured.

The Spanish ruler has become extremely nervous following the accident, which is the second to occur since his arrival in England. At Southampton yesterday a landing float on which the King was standing was nearly submerged by a barge that ran afoul of it.

## CHARGES AGAINST OFFICIALS.

Melbourne, Aug. 6.—Grave allegations involving government officials have been made in connection with the operation of a syndicate which assisted in the Victorian government's land purchases in Coluna irrigation district.

## RAILWAY FIREMEN SEEK HIGHER WAGES

**Men on Eastern Division of Canadian Pacific Are Negotiating With Company**

(Special to the Times.)

Montreal, Aug. 6.—The firemen of the eastern division of the Canadian Pacific railway are now negotiating with the company for a higher scale of wages. It is stated that negotiations are, as they always have been, of a friendly nature and that until the new scale of wages has been agreed upon no statement of negotiations will be given out. It is practically certain that men will be given increase.

## TWO CASES OF SMALLPOX.

(Special to the Times.) Toronto, Aug. 6.—Two cases of smallpox were discovered in the city yesterday. Both are now isolated in the hospital.

## FOREST FIRES ARE SPREADING

**SERIOUS LOSSES IN  
MONTANA AND IDAHO**

**Over 2,000 Men Fighting Flames  
Within Radius of 100 Miles  
From Spokane**

(Times Leased Wire.)

Spokane, Wash., Aug. 6.—More than 2,000 men are fighting forest fires to-day, all of which are doing damage within a radius of 100 miles from Spokane.

Fires in the vicinity of Murray, Idaho, have swept all of the timber from an area four miles in width and ten miles in length, together with buildings, flumes and appliances belonging to mining companies. The fire originated near the mouth of Bear creek and is burning toward the divide between Idaho and Bitter Root forest. All of the territory drained by Bear creek has been swept by the fire which already has destroyed four homes, two blacksmith shops and an old sawmill belonging to the Bear Top Mining Company.

The upper buildings and old boarding house of the Paragon Mining Company have been destroyed by the same fire, which passed over the ridge that divides Bear Creek canyon from Pagon gulch.

For a week employees of the mining companies, together with seventy men under Forest Ranger Williams have been combatting the flames, but it has been gradually increasing in intensity until the whole surrounding forest is threatened.

The fire is now burning within eight miles of Murray.

A fire at Kootenai, about 75 miles from the Montana-Idaho line, and sixty miles east of Lewiston, is doing great damage. Last night the fire could be seen for miles, and the surrounding country was as light as day. Aid has been secured from Kootenai and Stites, and a hard fight is being made to control the flames.

The forest fire on Pine creek, near Warden, Idaho, has gained headway for the last three days and now has a front of about 10 miles, extending from the west and south forks to a point east of the Nabob mine, on the crest of the divide between Pine creek and the Cour d'Alene river.

Almost numberless smaller fires are reported throughout Montana and Idaho.

## CONTRACT WORK VS. DAY LABOR

**ENGINEER'S ESTIMATE IS  
BELOW OTHER TENDERERS**

**City Council Decides Excavating  
of Yates Street Will Be Done  
by Civic Staff**

It was decided at last evening's meeting of the streets committee of the city council that the work of excavating Yates street, between Douglas and Blanchard, shall be done by day labor under the direction of the city engineer, whose estimate of the cost of the work was some \$1,900 lower than the bid of the lowest tenderer by contract. There was some debate as to the wisdom of the city to attempt to do the work at a time when the civic staff has already more than it can handle, but on the assurance of the engineer that there would be no difficulty in finishing the job in time the board agreed that the work shall be done by day labor.

In this connection J. Stedham, manager of the Pacific Construction Company, forwarded a letter wherein he urged that as he was the lowest tenderer, with the exception of the tender of the city engineer, his company should be awarded the work. He stated that the bid of the engineer was altogether too low. The engineer had figured on a price of thirteen cents per yard for sidewalk work when the material alone costs twelve cents, and past records of city work of this kind shows that sidewalk work has cost twenty cents per yard. Also the engineer had figured on constructing curb and gutters at fifty cents per yard, when the materials cost forty-five cents per yard, leaving but five cents for labor. For concreting and grading \$1.05 had been allowed by the city engineer, whereas Mr. Stedham had been allowed \$1.17 per yard on the Yates street pavement, and even at the latter figure had barely made ends meet. Mr. Stedham on behalf of the company stated that all specifications had been complied with, a cheque had been put up as guarantee, and that if the engineering department is to compete with contractors it is only fair that the city should comply with the same conditions.

Ald. Fullerton moved that the letter be received and filed.

Ald. Bannerman, chairman of the committee, explained that the council had asked himself and Mr. Northcott, the assessor, to examine the tenders for the work and do what was best in the interests of the city. They had con-

## REACTIONISTS PLOT AGAINST SULTAN

**Large Number of Turkish Revolutionary Leaders Have Been  
Placed Under Arrest**

(Times Leased Wire.)

Constantinople, Aug. 6.—Realizing the precarious condition in which the Young Turk regime is placed, the leaders of the reform government to-day are preparing to take strong repressive measures to stamp out revolutionary plots throughout the empire.

Many members of the Islamic revolutionary committee are under arrest, and government agents are seeking others known to have plotted murder, as well as insurrection. The reactionaries are strongest in the northern provinces, and Albania is designated on the maps of the war department with red ink to indicate the Balkan provinces are the hot beds of conspiracies against Mehmed V., and that there the strictest means must be taken to stamp out revolt.

The Young Turks are temporarily profiting by a division of their opponents. A great number of the older reactionaries favor a return to the throne of the decried Abdul Hamid. The younger members of the revolutionary set favor the retention of Mehmed, who they declare would be satisfactory if surrounded by different advisers.

## ANOTHER STEAMSHIP LINE TO AUSTRALIA

**Steamers Will Call at Ports in  
Eastern Canada and  
States**

(Special to the Times.)

Halifax, N. S., Aug. 6.—Advices have been received here of the organization of the Merchants & Shippers' Steamship Line, which is being organized in Australia to operate an overseas shipping company. The line is to operate to and from Australia, Tasmania and New Zealand, and the eastern states of America, Canada and Great Britain.

The service will be commenced with five large steel steamers. The vessels are to be among the most up-to-date cargo steamers trading with the southern hemisphere. Monthly sailings will be maintained, and Halifax will be one of the ports in the itinerary.

## REMAINS FOUND ARE THOSE OF WOMAN

Description Given by Dr. Pepper Tallies With That of Mrs. Crippen

(Times Leased Wire.) London, Aug. 6.—The body found in the cellar of Dr. H. H. Crippen's home at 309 Hilldrop Crescent, Islington, was that of a woman, according to the declaration of Dr. Pepper, leading London toxicologist and chemist for Scotland Yard.

"The remains are those of a middle-aged woman, who was large and of a robust type," said Dr. Pepper today. The surgeon made his report irrespective of police direction and only after he had conducted a careful research.

The description given by Dr. Pepper corresponds to that of Belle Elmore Crippen, of whose murder Crippen is accused.

## INCREASE IN RAILWAY FATALITIES IN STATE

Eleven Hundred Persons Killed During First Three Months of the Year

Washington, D. C., Aug. 6.—According to a statement by the interstate commerce commission, 1,100 persons were killed in railroad accidents and 21,233 injured during January, February and March of this year. This is an increase of 466 in killed and 6,119 injured over the same period last year. The accident record for electric railroads is low. During the three months of the first quarter of the year, 18 were killed and 699 injured.

### SCOUT MURDER THEORY.

Detectives Believe Former Mayor of Roanoke, Va., Committed Suicide.

Roanoke, Va., Aug. 6.—Assenting that he killed himself by holding a stick of dynamite in his hands and lighting it with a cigar, detectives refuse to credit the story that former Mayor A. H. Bousman of Ridgeway was assassinated. Added to the fact that Bousman is said to have been deeply involved financially, and that recently he had taken out life insurance policies totaling \$100,000, the authorities point to his recent experiments with powerful explosives in support of the suicide theory.

### BOY CRUSHED TO DEATH.

Springdale, Wash., Aug. 6.—The body of little Johnny O'Hare, the 12-year-old son of William O'Hare, was brought here today, having been found lying, bruised and crushed, under a log nine miles from Springdale, through the nervous and excited actions of Johnny's dog. Yesterday the lad, accompanied by the dog, his inseparable companion, went for a hunt in the hills. A few hours later the dog returned without its young master. His actions aroused the fears of the boy's father and a searching party was formed. The boy's body was found late last night.

### EXPLOSION ON SUBMARINE.

Two Officers and Five Men Injured on "A. L."

London, Aug. 6.—Advises received by the Admiralty report the serious injury of two officers and five men in an explosion of oil on board the naval submarine "A. L." This is the hooded vessel of the navy, having been in many accidents since her completion in 1903.

### CLOSED TOWN.

Seattle, Wash., Aug. 6.—Seattle's restricted district will be closed to-night. Pending the hearing of an application for a petition for a permanent injunction on Monday, Judge Gilliam, of the Superior court, today issued a restraining order. Deputy sheriffs are busy this afternoon serving the persons concerned. The order restrains the members of the city council, Mayor Gill and Chief Tappenstein from interfering.

—The best business men in this community have invested in Amalgamated Development Company stock—and still more are investing.

## ALL ARE SAFE AT JUNEAU

### NO ONE INJURED IN WRECK OF MAY

Vessel High and Dry at Low Water—Ran Ashore With Terrific Force

(Times Leased Wire.) Juneau, Alaska, Aug. 6.—The steamer Georgia reached port at midnight with the remaining passengers and crew of the wrecked Princess May. A few were brought earlier in the evening. No one received as much as a scratch. The steamer was far out of her course when she struck. Photographs at low tide show the entire hull. Travelling at 12 knots an hour, the ship hit with terrific force and was driven high on the reef. Shipping men believe she can be saved. The passengers are all quartered in local hotels. The steamer Beatrice, due here to-morrow night, has been ordered to take them south.

The Princess May left Skagway about midnight and was making her way down the Lynn canal when fog shut in. There is a fog alarm on Sentinel Island, but the warning horn was not heard, and the danger was not apprehended. Capt. McLeod and his officers quickly allayed the fears of those on board, and there was no panic. The wireless operator sent out distress signals, but no answering signal came to them before the engines were flooded out and his apparatus rendered ineffective. At the same time electric lights were extinguished.

The weather was calm. The landing of the shipwrecked company was carried out without much difficulty, and after the mails and all on board had been safely brought to shore the pilot, Capt. John Richardson, was sent with a boat's crew to Juneau, about forty miles away. He was picked up by a steamer and taken to the Alaskan capital where he sent a message from Capt. McLeod. This read:

"The Princess May struck at 2 a. m. on the north end of Sentinel Island. The forehold and engine room will be full of water on the incoming tide. Send wrecking outfit. Passengers and mails safely landed on Sentinel Island. John McLeod, master."

The steamer Princess Ena, Capt. Campbell, which was advised of the stranding of the Princess May while en route to Skagway yesterday went to the assistance of the shipwrecked company and the Georgia was sent from Juneau. The survivors of the shipwreck were taken to Juneau by these vessels and will be brought south on the first steamer. The C. P. R. agent on the first steamer, Mr. Spickert, is looking after the wants of the company who are being housed at the Juneau hotels at the expense of the steamship company.

The steamer Princess Beatrice, Capt. Whiteley, which reached Prince Rupert last night from Vancouver, was ordered by the C. P. R. officials to proceed to Juneau to bring the shipwrecked passengers and crew of the Princess May from Juneau to Victoria. She is expected at Juneau on Sunday, and will arrive here about Thursday next.

None of the passengers or crew were injured. A boat's crew of six was picked up by a fishing launch and taken to Juneau. Later a second boat's crew with Pilot Richardson arrived.

At the time of the accident, Captain McLeod was in his berth, and Pilot Richardson was on the bridge. The approach to Sentinel rock at the southern end of Lynn Canal is one of the most perilous stretches of water in Alaska. A ship must clear rocky islands on both sides, the smallest variation from the course entailing disaster.

Among the Victorians who were on the steamer Princess Ena when she struck Sentinel Island were: Mrs. Betterton and Miss Charlotte Betterton, of McClure street, and Master Aubrey Jones, son of H. H. Jones.

At the time the news of the accident arrived, Capt. Troup was at Vancouver, and he was kept informed of the latest happenings at that point. He will probably leave for the scene of the wreck on the Princess Royal, which leaves Vancouver to-night.

It is understood that the salvage steamer Santa Cruz will go north from Seattle, the scene of the accident being in United States waters. An attempt will at once be made to raise the steamer. The lighthouse on Sentinel Island is a United States institution.

### FLIES IN FOG.

Paris, Aug. 6.—Hubert Latham, driving an Antonette monoplane in the 87 mile race from Chalon to Issy, a suburb of Paris, against the American aviator, Weyman, in a Farman biplane, landed on the parade grounds at Issy, easily victor in the contest. His competitor is still unheard from. Latham spent four hours in flying in circles before he succeeded in getting a course for Paris. A heavy fog bewildered the aviator.

The prize for which Latham and Weyman competed was the Falco \$2,000 purse.

### BI-PLANE WRECKED.

Falls Fifteen Feet to Ground During Contest—Aviator Escapes Uninjured.

Los Angeles, Cal., Aug. 6.—J. J. Slaven, the Los Angeles aviator, is today reported having his bi-plane which was wrecked when the machine fell 15 feet to the ground while Slaven was attempting to win the Knabenehue cup at Del Rey last yesterday. It is believed that the machine was repaired within a few days and that he will make another attempt in the near future to win the prize.

With wind conditions perfect, Slaven attempted to fly the required distance to the cup. After he had gone about 30 feet the bi-plane dropped to the ground. Slaven was not injured.

### MARRIED.

CLARKE-MARTIN—On Wednesday, July 20th, 1910, at 123 Suffolk street, Guelph, Ont., Mr. Earl Winton Clarke, B. A., of Victoria, B. C., to Ella Jean Martin, only daughter of Mrs. Joseph Carter.

### DIED.

YOUNG—Louis Young, of the New England hotel, died August 5th, 1910, a native of Bavaria, Germany, aged 62 years. The funeral will take place on Sunday, 14th, at 2.30, from the Victoria Undertaking Parlor, 577 Yates street.

Friends please accept this intimation.

### TOO LATE TO CLASSIFY

FOR SALE—Bargain, large lot, corner of Hillside and Cook street, 120 frontage on Hillside; quick sale, only \$1,000, terms. E. C. B. Bagshaw & Co., 1112 Broad St.

FOR SALE—A good spec., business location on Fort street, opposite Oak Bay avenue, lot 100 ft. wide, only \$250 per acre. E. C. B. Bagshaw & Co., 1112 Broad street.

FOR SALE—A bargain for quick sale, three acres, in Oak Bay district, close to sea, fine view, frontage on two streets, will subdivide into only \$250 per acre. E. C. B. Bagshaw & Co., 1112 Broad St.

TO LET—Newly furnished front rooms, \$5.50 per month up, 720 Flanagan St.

KING EDWARD HOTEL—We are instructed by the executors of the estate of the late James Rollin to offer for sale the licensed premises known as the King Edward Hotel, Port Alberni. The property consists of a double corner, with 125 feet frontage on Argyle street and 125 feet frontage on First avenue. The hotel is a new 3 story building, containing 25 bedrooms, dining room, ladies' and private sitting rooms, kitchen, card room, bar and liquor room, and is completely furnished throughout. The King Edward Hotel is one of the two licensed houses in Port Alberni, and is magnificently situated in the heart of the town, commanding a view of the harbor and mountains. For further particulars apply to Carnichael & Moorhead, Ltd., Port Alberni, and Chancery Chambers, Victoria, B. C.

FOR SALE—1 plate camera, almost new, with complete outfit, at a bargain. Apply 214 Quadra street, opp. Central Park.

ALBERNI TOWN LOTS FOR SALE—Price \$125, \$50 cash, balance \$75 monthly. Apply—214 Quadra street, opp. Central Park.

FOR SALE—New, modern, 6 roomed bungalow, opp. Central Park, lot 40 by 120; small cash payment, balance as rent. Apply owner, 214 Quadra street.

WILLOWS CAR LINE—Just beyond hospital, big level lot, 50x150, only \$500. L. W. Hick, Broad street.

FOR SALE—4 lots just outside the city limits, all in orchard, one of the cheapest and best buys, size of lots 52x104, high situation, and 3 minutes' walk from street cars, \$50 each, and will make your own terms. Cuthbert & Co., 535 Fort street.

FORT STREET, READ THIS—12x120 on cor., close in, with splendid buildings going up all around it, with 2 small buildings, 2 1/2 lots to pay for them, \$29,000. Pemberton & Son, 614 Fort.

HILLSIDE AVENUE—3 lots, on a corner, with 125 ft. frontage on Hillside, all fenced, and water on lots, cleared, and one of the cheapest buys on Hillside. \$1,700; 1 cash, balance easy. H. Cuthbert & Co., 535 Fort street.

SNAP—Lot, Michigan street, 5x120, 120 ft. line, near Government Buildings, \$50, terms. Owner, Box 885, Times.

WANTED—Everybody to know that Dr. Young told the chairman of the Chilly-wack School Board in 1908 that the Governor-General's bronze medals were given to places where there was the most competition at the High school entrance examinations. That George A. Young, of Mountain View, and Miss Jessie Mitchell, of Summerland, are accordingly entitled to the tenth and twelfth medals this year; but they did not get them. Then to ask Lieutenant-Governor Patterson and Premier McBride to get this put right, since the honor of Earl Grey and of British Columbia is at stake. J. N. Muir, al2

WANTED—Girls. Apply Victoria Steam Laundry, 516 Yates street.

FOR SALE—Revenue bearing property, lot 60x120, on Fort street, near Vancouver, price \$10,500, terms. Apply 3 Bowens Block.

\$5,000 FOR A NEW 3 ROOMED MODERN HOUSE, near Beacon Hill park, one block from cars, built up walls, sliding doors, built in sideboards, dumb waiters or lifts from basement, bath, room, etc., cement floor in basement, furnace, etc. Pemberton & Son, 614 Fort.

\$500 LOT, 50x120, 100 yards from Richmond avenue car line; \$50 cash, \$10 monthly. L. W. Hick, Broad street.

FORT STREET—Two good lots, can be delivered for the next few days at a price below present market value. A. R. Sherwood, Northern Crown Bank Building.

WANTED—To buy, an Irish or Alfrede terrier pup; no fancy prices. Sanders, 3010 McClure street.

CORNER DAVE AND COWAN STS.—Just off Oak Bay Ave., two lots, \$1,400. See ad, 20x120 ft., \$1,200. Westcott & Lettis, Moody Block.

PERSONALLY SELECTED Port Alberni town lots for \$55 each; \$10 cash, \$5 per month; no interest, no taxes. P. O. Box 250.

FOR SALE—Cheap, splendid lot, Oakland district, within city limits. Phone R1721.

8 ACRES, more or less, house, outbuildings, fruit trees, plenty of water. Reid, Montreal Chambers, Victoria.

## TO-MORROW A "DRY" SUNDAY

LIQUOR ACT CLOSES ALL THE BARS IN PROVINCE

Road Houses in Vicinity of Victoria Will Suffer Considerable Loss of Revenue

To-morrow will go down in history as the first "dry" Sunday ever experienced in British Columbia, for at 11 o'clock to-night the provisions of the liquor act, passed at the last session of the legislature, will become effective. All the saloons and hotel bars throughout the province must be closed and no liquor sold from 11 p. m. until 5 of the clock on Monday morning.

The various road houses in the vicinity of Victoria and the suburban hotels will be hard hit by the enforcement of the new act. The Oak Bay, Gorge and Willow hotels and those in Esquimalt, favorite resorts on Sunday, will be closed to-morrow and every Sunday hereafter. The clause in the act explanatory of Sunday closing and prohibited hours reads as follows:

"In all places where liquor is or may be sold by wholesale or retail within the limits of the province of British Columbia, no sale or other disposal of liquor shall take place therein or on the premises thereof or out of, or from the same to any person or persons whomsoever, and no person and no licensee holding any license for the sale of liquor shall sell, barter, or give any liquor from or after the hours of 11 of the clock on Saturday night until 5 of the clock on Monday morning, thereafter, nor during any further time on the said days, nor during any hours or other days during which any statute in force in this province, or by any law in force in the municipality wherein in such place or places may be situated, the same or the warehouse or the barroom or the store-room thereof are to be kept closed, nor shall any liquor, whether sold or not, be permitted to be drunk in any of such places during the time prohibited."

The act provides for some exceptions to the provisions of this clause. Thus the act "shall not prevent the furnishing of liquor with meals, but not otherwise, in any hotel dining-room to any bona fide traveller who arrives at the place in which the hotel is situated by any regular means of conveyance in the prosecution or upon the termination of a regular journey. Provided always, that excursionists travelling for pleasure by any means of conveyance whatsoever shall not be deemed to be bona fide travellers. Nothing in the act shall apply to the case of hotel and restaurant-keepers supplying liquor to their guests in dining-rooms with regular bona fide meals."

P. S. Hussy, superintendent of provincial police, has notified all parties concerned throughout the province by circular letter, and it is said to be the intention of the government to enforce the law strictly.

## MILLS AND LOGGING

CAMPS ARE BUSY

Output of Logs in Three Months in Vancouver District Sets a New Record

Vancouver, Aug. 6.—Figures compiled by Supervisor of Scales Robert Hamilton show that the logging camps tributary to Vancouver are "this year turning out more raw material than ever before. The record for July will run up to 56,000,000 feet as against 42,680,000 feet for July, 1909, and the official compilations show that the cut of logs for June was 70,000,000 feet and for May 69,000,000 making the past three months a banner quarter. This record is approximately double that for the same three months last year. With such a flourishing logging industry, it naturally follows that the sawmills taking this timber are well supplied and that their cut is proportionately large though no figures in this line are yet available. While the mills are running regularly and doing a big business, orders for future delivery in the Northwest are coming in rather slow just now, the buyers being rather cautious at this season of the year. With much building going on here there is a very active local demand however.

## BLAZE AT ASTORIA.

Astoria, Ore., Aug. 6.—The worst fire in several years broke out here yesterday and before it was controlled it had completely destroyed the warehouses of Ross, Higgins & Co., and Fisher Brothers Co. The loss is estimated at \$75,000.

## SLAIN BY POLICEMAN.

Shelby, Ohio, Aug. 6.—Running amuck yesterday Harley Hay, a hostler, shot and seriously injured a farmer and two policemen on the principal street here. A policeman shot and instantly killed Hay.

England spends £12,500 a year on the British museum. The salary of the principal librarian is £1,500.

## MRS. LONGWORTH ASKED TO ABANDON SMOKING

Christian Endeavor Societies Will Send Letter to Ex-President Roosevelt's Daughter

Fairbury, Neb., Aug. 6.—Declaring cigarette smoking is a habit condemned by all Christians, Mrs. Alice Longworth was yesterday asked by the Christian Endeavor societies meeting here, to abstain from smoking. The following letter will be sent to Mrs. Longworth: "Dear Mrs. Longworth, we are informed that you are addicted to a habit condemned by all Christians and progressive citizens of this, the greatest nation in the world. We refer to your habit of cigarette smoking."

"We deplore such a situation, when one of the great ladies in the land, one who adorned the capitol of this great nation, should set such a demoralizing example before our rising citizenship, before the boys and girls of America. Therefore, we, the several Christian Endeavor societies of Fairbury, ask you in the name of Him, ruling all, for the sake of perpetuating that high standard of moral citizenship so often expressed by our beloved Theodore Roosevelt, to abjure cigarette smoking henceforth and forever."

## DENIES OFFERING

BRIBE TO SENATOR

Further Hearing of Charges Made in Connection With Indian Land Contracts

Muskogee, Okla., Aug. 6.—Jacob L. Hamon, accused by United States senator Gore of having offered him a bribe of \$25,000 to remove opposition to bills which would validate Indian land contracts held by J. C. McMurray and which would have netted millions of dollars in fees took the stand yesterday and denied absolutely that he had ever offered money to Senator Gore.

Hamon said he had made no improper offer in regard to the contracts and that he had not endeavored to bribe the blind senator from his own state. He denied specifically parts of the conversation which Gore on the stand attributed to him in a conference between himself and Gore in the latter's office in Washington.

"There is absolutely no foundation for Gore's story," Hamon declared when he took the stand. "I did not suggest to Gore on May 6 or at any other time that he could get \$25,000 or any other sum out of the McMurray contracts."

"When Gore said I suggested that he might secure \$25,000 if he would not fight the McMurray contracts, Gore lied," Hamon testified.

"McMurray had not sought to interest me in the contracts," continued the witness. "At no time did I ever intimate to any man or men that I was interested in them."

Later in the day he admitted that he may have gone to Congressman Ferris and Morgan of Oklahoma with a view of interesting them in the contracts. Hamon said if he had talked with Congressman Morgan about the contracts he believed he had probably said he would like to see McMurray get what he wanted.

Hamon admitted his attempt to interest Morgan on cross examination. Congressman Charles E. Creager, on the stand, said he had not received any offer of a share in the contracts through Hamon and that though he had followed Hamon's suggestion and called on J. C. McMurray, the latter had not mentioned the contracts to him.

He declared that McMurray never offered to let him in on the contracts and did not suggest a bribe.

"Hamon told me he could arrange for me to get an interest in the McMurray contracts, but he did not say that he was interested in them," Creager testified. "I understood that Hamon was authorized to represent McMurray."

## Sherman's Denial.

Big Moose, N. Y., Aug. 6.—Vice-President James S. Sherman has sent the following telegram from his summer home to the United Press:

"The story coming to me of the Gore charges in Muskogee is absolutely without the slightest shadow of foundation."

"I never heard my name mentioned in connection with the McMurray contracts," Sherman's telegram added. "The story as far as my name is concerned has no foundation whatever. If anyone has asked I was personally interested in this case, he stated that which is not true."

## NEW MASONIC LODGE.

New Westminster, Aug. 4.—Lewis Lodge No. 57, A. F. & A. M., which was formed on May 24th, 1909, but which has up to the present been running under a special dispensation, having never been duly constituted, will be officially instituted and its officers installed on Monday evening of the coming week. The approaching ceremony will be an important occasion, and all the members of the lodge are expected to be present. The installation of the lodge and the installation of the officers will be performed by Most Worshipful Brother E. B. Paul, of Victoria, grandmaster of the order in this province. Other officers who will take part will be Worshipful Brother John A. Lee, of this city, District Deputy Grand Master, and Very Worshipful

## REPORT ON TRADE.

New York, Aug. 6.—Bradstreet's today says: "Trade reports show little fall demand, though the advance of the season and the advance of crops towards harvest has aided in enlarging the jobbing demand at some important western centres. Retail trade is still confined largely to clearance sales of summer goods at concessions. Collections, as yet, show little improvement and are slow as a whole. In leading industries there are few new features. Building returns for July show a heavy decrease from a year ago. Iron and steel are quiet, and leading interests report that prices will not be cut, but some western markets report price concessions in finished lines. Business failures in Canada for the week number 47, which compares with 41 for last week, and 27 in the like week of 1909."

## U. S. POSTAL DEFICIT.

Washington, D. C., Aug. 6.—In consequence of the policy of retrenchment pursued by the postoffice department, the auditors report for the year ending June 30th shows a reduction in the deficit of over \$10,000,000. During the fiscal year of 1909, the deficit amounted to \$17,450,000; this year the deficiency was but \$5,970,000.

The only perfect warning that will clear the road for you.

Let us put one on your car or launch, thus helping you to avoid accidents and the possibility of damage suits.

### ACCIDENT TO PREMIER'S TRAIN.

Any apprehension which might have been raised in the minds of the people of Canada, who have naturally been following with deep interest the daily progress of the Prime Minister and his party towards the Pacific Coast, by the news that the special train on which the distinguished company was travelling had been wrecked, was almost immediately relieved by a later announcement that the accident was not attended by serious results. Sir Wilfrid Laurier is extremely gratifying to report, escaped with a few minor bruises. The fact that the Prime Minister was able to leave his car for the purpose of expressing his solicitude for the welfare of the members of the train crew who had suffered from the effects of the collision, confirms the announcement that the accident will not be followed by any untoward consequences. Sir Wilfrid was slightly bruised and cut, but his injuries are only superficial. The railway company doubtless has the line clear while this being written. The itinerary of the party will not be affected by the mishap.

### A HOPELESS TASK.

The trek to Canada from the United States must have assumed considerable proportions when the press of the latter country is making such desperate efforts to check it. Reports are being spread broadcast throughout the western States to the effect that failure for the most part has been the lot of the American emigrants. The federal government is taking a hand in the game by throwing open Indian lands and other reserves as an inducement to the land hungry to stay in, and settle down in their own country. Misrepresentations are being printed about the administration of law in Canada, the harshness of the climate, and other purely imaginative features of the conditions settlers are called upon to endure. But these things only tend to confirm the popular and increasing impression that there must be something good in the country or there would be little necessity for the circulation of such reports. That there is a very large element of Americans settled and doing well in the prairie provinces is attested by the fact that thousands of them have attended the meetings held by Sir Wilfrid Laurier during the course of his tour through the provinces of Manitoba and Saskatchewan. Thousands more will listen to the Prime Minister's addresses in the farther west province of Alberta. These people have given no indication of dissatisfaction with the conditions under which they are working. They have complied with all the requirements of the law in regard to taking up and holding land. They are displaying a commendable interest in the working of our political institutions and system. They have become British subjects. It is quite safe to assume that they are in regular communication with their relatives and friends at home. They are acquainting their correspondents with their circumstances of life. Their views will have a more salutary effect in clearing away any misapprehension that may temporarily result from the publication of "Don't Go to Canada" notices than any action that could possibly be taken by our governments, federal or provincial. Satisfied immigrants are the very best immigration agencies. The effort to stem the tide of immigration from the States will prove abortive.

### THE QUESTION OF LOYALTY.

Joseph Martin, member of the Imperial Parliament, we are informed, lately delivered a "striking speech" in Vancouver. Trust Mr. Martin for saying or doing striking things. In his normal humor the honorable member for East St. Pancras is always striking at somebody or something. He had not been a month in the Imperial House of Commons until he was striking at the government he was elected to support. Prime Minister Asquith did not measure up to Joseph's high ideals, consequently there was only one thing to do, and that was to strike at him. Mr. Martin, like ourselves, thinks the House of

Lords is an anomalous institution in these days of popular government, of "government for the people by the people." But Mr. Martin's temperament is too ardent to go about the task of accomplishing reform in the surest, safest and most effective manner. His methods are revolutionary, not evolutionary. He is too impatient. He has not read British history with intelligence and discrimination. He would effect reforms by sudden, frantic bounds. His political ideals savor of the continent. He does not see that Great Britain occupies the position of prominence she holds to-day in the world because of the patience with which her people have worked out the political problems as they have arisen. If Mr. Asquith were to undertake to abolish the Lords at this time instead of reforming them and gradually leading up to the ultimate goal which is the ideal of Liberalism, it is morally certain that the cause would receive a check or a set-back from which it would not recover in a decade, or possibly in a quarter of a century. The Prime Minister perceives that the only course it is safe to pursue just now is one of compromise. Mr. Martin is an avowed enemy of compromise. He believes in striking at an anomaly, not in gradually digging it up from the roots. Consequently he cannot get along with anybody. He is destined to plough a lonely political furrow. And because of the peculiar angularities of his temperament he has a very far from engaging habit of ascribing unworthy motives to everybody who will not be guided by his advice or accept his leadership.

At his speech in Vancouver the visiting member for East St. Pancras told his audience that from what he had read of the speeches of Sir Wilfrid Laurier he feared that gentleman favored the independence of Canada and that he was opposed to such a propaganda because he believed it must inevitably lead to union with the United States. If Mr. Martin had read the addresses of the Prime Minister as published in newspapers giving true reports of the proceedings instead of the garbled versions printed in some Vancouver journals he need have been under no such misapprehension. May we call the attention of the doubting member to the report of one of the speeches delivered by Sir Wilfrid Laurier to the German settlers in the province of Saskatchewan urging upon them their duty to Canada and the British Empire? Here is what the Prime Minister said:

"I have tried all my life to stand on the broad principles of Canadian citizenship, and I have learned to rely at all times on the support of reasonable and fair-minded men. I have done what is in me, my best, for Canada, for our country. Men there are to-day, men there were yesterday, men there will be to-morrow, who will pander to passion and prejudice in Canada. Thank God, the Liberal party has never been guilty of such practices. Thank God, my soul is conscious of no such feelings. Yes, I thank God to-night, with the sunrise of to-morrow, when the telegraph flashes to the uttermost parts of the civilized world the news that German citizens of Canada were the first to give assurance that the Canadian navy could count on them, sir, there will be a thrill of pride all over Canada and the British Empire, a lesson for certain bigots to be found in various parts of our country and Empire."

"It has been stated that there is danger of Germany and Great Britain going to war. No, no, I will never believe it. England is the best friend Germany has. England has proved it in the past, in the time of the French revolution, in the name of international relations, should Germany quarrel with Britain? God forbid. If the time of stress should come I appeal to you German Canadians to throw yourselves between the would-be combatants, and try to prevent the unholy struggle, but if the time ever comes that the Old Land is in stress, in danger, no matter from what source, we will remember your pledge and count on you for the flag, and king and empire. I cannot say more. I thank you from the bottom of my heart. God speed you all in your noble Canadianism."

In connection with the announcement that the Canadian cruiser Rainbow, which will form the "nucleus" of the projected Canadian navy on the Pacific Coast, will soon sail for her station at Esquimalt, the following dispatch from Ottawa relative to the rates of pay which will prevail in the service is of interest: An order in council has been passed fixing the rates of pay for the officers and men of the naval service of Canada. The main features were made public during the last session of Parliament, but the present order gives them in much greater detail for all ranks of the service. The pay allowances, and gratuities are based upon the rates in the Imperial navy, taking into consideration the increased cost of living in Canada. On the whole, the rates vary from 25 to over 50 per cent. more than the British rates. Captains on promotion will receive \$5.20 per day, after four years' service \$9, and after eight years' service \$9.50. Command money will be \$3 per day on promotion, with \$4 after four years' service, and \$4.50 after eight years' service. Commanders will receive \$6 per day on promotion, and Lieutenants \$4 per day,

with corresponding increases as above for length of service. Engineer captains will receive \$12.50 per day, thus being considerably higher salaried than the man in command of the ship. Other figures include the following: Chief warrant officers on promotion, \$3.50; gunners, boatswains and carpenters, \$2.50; able seamen, 70 cents; ordinary seamen, 50 cents. The allowances for upkeep of kit, gratuities, etc., are similar to the regulations of the British Admiralty.

### ELDERLY WOMAN ENDS HER LIFE BY HANGING

Mrs. Louisa Eberts Found Dead in Shed at Residence on Saanich Road

Mrs. Louisa Eberts, a resident of Keatings and a native of Germany, was found dead in the woodshed of her house on the Saanich road, near Keatings station, yesterday afternoon. The police were notified and an inquest will be held on Monday afternoon. Deceased was found hanging from the rafters of the roof suspended by a rope, and it was an evident case of suicide. The body had, according to medical theory, been hanging an hour before it was discovered. Constable Little, Saanichton, took charge of the case and had the body removed to the city, where it was placed in the Hanna undertaking parlors to await the inquest. The deceased arrived from Germany within the present year, and spent several months in the eastern provinces. She is between 60 and 70 years of age and is survived by two daughters and a son, all of whom reside in the city. An inquest will be held on Monday at 11 a. m., by Dr. Bapty, who was this morning sworn in as deputy coroner.

### POLICE CHIEFS PAY VISIT TO VICTORIA

Driven Round City and Banqueted at Empress—Commissioner Tait Presides

Victoria was visited yesterday by a number of the police chiefs who have been attending the annual convention at Vancouver this week, and they were Chief Langley, who represented Victoria at the convention, invited the guests and those who accepted the invitation were driven by automobiles round Victoria and entertained last night at a banquet held at the Empress hotel.

The visitors expressed themselves pleased with the scenic beauties of the city and surroundings. Police Commissioner Leonard Tait presided at the banquet and Hon. Dr. Young and Mayor Morley were present. An address was given by Inspector Stark, of the Toronto police force, on the work of the association and the parole system in force in the Dominion. The visitors returned to the mainland last night en route to their homes.

### PERSONALS.

Capt. Jarvis is in Vancouver to-day on business.

Miss Chandler is visiting with Vancouver friends.

Mrs. R. Gear, Lady Smith, who has been visiting with friends here, has returned home.

Mr. and Mrs. W. D. Hayward and family are spending the month at Campbell river.

Miss Nellie Falconer is visiting with her aunt, Mrs. Forbes-Robertson, at the Manse, Ladysmith.

Mrs. H. Beacham, Vancouver, is spending the week in Victoria, a guest of her sister, Mrs. J. O. Stinson.

Miss Irene Ross, of Vancouver, is spending a pleasant holiday with her aunt, Mrs. E. Crow Baker, at "Sissinahurst."

C. G. Van Hook and W. S. Mathews, Vancouver, who have been here on a business visit for several days, returned to the mainland last night.

B. J. Collins, of the engineer's department at the city hall, has resigned, he will leave shortly for Prince Rupert, he having accepted position with the Grand Trunk Pacific Railway Company.

J. H. Brookes, manager of the Kaslo branch of the Bank of British North America, has returned home, after enjoying a fortnight's holiday here.

Rev. Alfred Hall, commissioner for Canada, and Mr. J. S. Bailey, port missionary here of the British and Foreign Sailors' Society, left for Vancouver by yesterday's boat, the former on his way home, and the latter on a business trip.

Invitations have been issued by Captain John Newby for the marriage of his daughter, Millicent Greasley, to Mr. Gilbert Goodwin Fraser, on Wednesday, 17th instant, at 8 p. m., in St. James' church, James Bay. A reception will be held at 516 Rishet street from 9 to 10.30 p. m.

Dr. Rankine Dawson, London, Eng., who has been staying at the Driad during the past few days, is a brother of the late Dr. Geo. M. Dawson, who, in connection with the Geological Survey of Canada, spent upwards of twenty years in exploring and mapping many districts of the province.

T. A. Kelley, C. E., of Oak Bay, was among the passengers from Queen Charlotte Islands on the steamer Amur, which arrived here yesterday. He had with him a party of sixteen. Before leaving he was presented with a token pole by the Indians. The government engineer was up to Skidegate locating a site for the wharf, and Mr. Lovering, the foreman, also went up to winter work.

The winter's wood. Cut it now. Diston's Buck saws, \$1.00; Cross cut saws, \$2.25 up; Axes, \$1.00 up; Hatchets, 30c up. R. A. Brown & Co., 1202 Douglas Street.

## LOCAL NEWS

A gilt-edge commercial investment is the Amalgamated Development Company—oil.

The provincial police desire it to be stated that a letter is at the office addressed to Miss Laura Earl from Toronto.

At the Unitarian service to-morrow evening Frederick D. Todd will give an address on "The Materialist Conception of History."

The funeral of the late Louis Young will take place at 3:30 p. m. to-morrow from the Victoria Undertaking Company's parlors.

Seattle, Wash.—S.S. Iroquois leaves daily, except Sunday, at 9 a. m., from Victoria Dock Co.'s wharf, next post office.

An Excellent Hosiery Value.—Ladies fine plain black cashmere hose, seamless foot, superior quality. Special value for 25c, a pair. Robinson's Cash Store, 445 Yates street.

The Ladies' Aid Society of First Congregational church have arranged for a trolley party on the observation car on Tuesday evening.

The funeral of Thelma Christina, the two-year-old daughter of Mr. and Mrs. N. F. Marson, 537 Bay street, who passed away unexpectedly after a short illness, will take place to-morrow afternoon from the residence.

Upon the return of the Hon. Thos. Taylor to town a deputation of the Vancouver Island Development League will wait upon him and present a number of resolutions recently passed by that organization. The resolutions deal with land clearing, the roads and trails, and the Buttle Lake Park reserve.

The members of the Ancient Order of United Workmen, their families and friends, will picnic at Oak Bay on Saturday, August 20, instead of next Saturday, as previously decided. There will be prizes for the handsomest baby and the most popular young lady on the grounds, besides all kinds of foot races, a tug-of-war, members of the order and a nail-driving contest for ladies.

The local stock brokers, F. W. Stevenson & Co., correspondents of S. B. Chapin & Co., members New York Stock Exchange, execute probably the largest investment business of any firm on the American continent, in any city approaching the size of Victoria. As a result of an order for 800 Line common stock placed by them this morning for B. J. Perry, involving a cash payment of \$115,000, the price of the stock on Wall street closed at 130 1/2 bid, after opening at 121 1/2 asked.

### RANCH MURDER MYSTERY DEEPENS

Officers Unable to Find Any Trace of Body of Younger Kendall

(Times Leased Wire.)

Santa Rosa, Cal., Aug. 6.—The officials of Sonoma county are seeking for a clue as to the whereabouts of T. A. Kendall, of the Star Buck ranch near Casadero, who together with his father and mother, is said to have been murdered.

The portions of human bodies found on the ranch indicate almost infallibly that two persons only were killed. They also show that the victims probably were the elder Kendalls. Although Sheriff Smith and his deputies have searched every portion of the ranch for the body of the younger Kendall, they have been unsuccessful.

The condition of the bones found, and the personal effects, such as rings, spectacles and the like, indicate that Enoch Kendall and Ura, his wife, were butchered near the ranch house, and their bodies cremated in the kitchen stove.

The Kendalls had nearly \$300 in their possession shortly before the murder.

Search for Suspect.

Oakland, Cal., Aug. 6.—"We will have our hands on Henry Yamaguchi, suspected of the Kendall murders on the Star Buck ranch in Sonoma county, before tonight," said Captain Peterson, of the Oakland police department, to-day. "Moreover, we have received a receipt signed by young Kendall for a registered letter. This was dated July 18 and if the Kendalls were murdered, this would tend to place the murder after that date."

"Kendall, however, was seen alive by persons in Casadero as late as last Monday, August 1st. It is up to the Sonoma county officials to prove him dead before they proceed any further."

### TOWNS IN DARKNESS.

Coquille, Ore., Aug. 6.—This city and Myrtle Point were in total darkness last night as the result of a fire which destroyed the sawmill of the Johnson Lumber Company. The electric plant which furnished light for these two towns is located at the mills. The loss is estimated at \$100,000.

In addition to the loss of the mill, over 1,000,000 feet of lumber and nearly a quarter of a mile of trestle of the local railway was destroyed.

### TWO KILLED IN WRECK.

Scranton, Pa., Aug. 6.—Two trainmen were killed and two others are missing as the result of a freight wreck yesterday on the Delaware, Lackawanna & Western Railway at Ananilmink, west of Stroudsburg. The train ran away while going down the Pocono mountain. Nearly all of the sixty cars are said to have been derailed and the wreck took fire.

### RACE RIOTS.

Atlanta, Ga., Aug. 6.—Race riots at Gray, Johns county, have caused the sheriff to request Governor Brown to send troops to maintain order. Militia were ordered to be in readiness to-day to proceed to the scene of the disturbance.

### BIGGEST SHOW YET.

Mrs. Richard McBride Will Officially at Opening of Flower Exhibit on Wednesday.

Mrs. Richard McBride has kindly consented to open the flower show in the Drill hall on Wednesday afternoon at 3 o'clock. The judges for the occasion will be Thomas Purdy, superintendent of parks, and L. Russell, one of the judges at the rose show. Both of these are competent men, and exhibitors can, therefore, depend upon getting a just award.  
Mrs. Henry Croft, whose exhibits of Ferns, palms and other foliage plants always attract so much attention, will have twice as large an entry this year as last. This in itself will be well worth going to see. There will also be all the old exhibitors represented and a number of new ones. The result will be that the show will be far and away the best that has ever been held in this city.

## WE GIVE

## Refinement and Distinction in Your Printing

Quality—good tone—in your printing creates at once a favorable impression on prospective customers—the absence of it damages you and your goods.

Tasteful—attractive—printed matter is a strong selling force; it will retain your existing connection and extend it.

Well-devised, well-executed printing forms a first class investment, paying substantial dividends in the shape of increased sales, more customers, more profit.

Our Printing Service is of the kind to produce these results.

## Sweeney & McConnell

Phone 190. Langley Street.

### PANTAGES NEW COMPANY.

To-night will be the last performance of the Lewis and Lake company in this city, and the farewell programme is proving by far the most popular of the entire six weeks' engagement. "Buffalo Bill" and "Whose Baby Are You?"—two howling farce comedies, with the accompanying chorus girl specialties all on the one bill—makes a most enjoyable entertainment.

Next week will see a complete company of new faces. The Rose musical comedy company, with fourteen people, special scenery, new productions and a very good reputation, will open a limited engagement on Monday, and it is safe to predict crowded houses, as musical comedy has certainly caught the public fancy, and the fact of the Rose company being new to Victoria will add attraction. The usual low prices will prevail.

—Wm. Stewart, men's and ladies' tailor, over Terry's Drug Store, Douglas St.

—Phone 446, keys and key-making, postoffice and Yale keys a specialty. Perfect fit assured. Valise, bag and suit case repairs, 720 View street: J. Waites.

### HIGH CLASS IRISH LINENS.

The spacious floor of the Broad street hall has just been availed of as a show room for the display of a large stock of most carefully selected and valuable Irish linen goods, which are intended to be sold by auction on Wednesday and Thursday next. These goods have come direct from the manufacturers, are introduced by J. P. Murphy, of Belfast, the great centre of the Irish linen trade, and certainly the beautiful goods now on view, amongst which are some of the choicest products of the world-famous Irish looms, make an exhibition which should prove a centre of attraction to householders and the public generally. The sale is an unusual one, both as to quality and quantity. As it is to be absolutely unreserved it will be particularly advantageous to those who are seeking first class goods. A visit will satisfy any judge that they are of a class that is but seldom met with in the ordinary trade. The goods will be open for inspection until the day of sale. Messrs. Maynard & Sons are the auctioneers.

### WEATHER BULLETIN.

Daily Report Furnished by the Victoria Meteorological Department.

Victoria, Aug. 6—5 a. m.—The pressure is increasing over this province, and, with the exception of showers at Tatoush, fair, warm weather is very general. In the prairie provinces the pressure has decreased; rain has fallen in Alberta and Saskatchewan, a heavy fall of over one inch during the last 24 hours occurring at Medicine Hat.

Forecasts.  
For 24 hours ending 5 p. m. Sunday, Victoria and vicinity—Southerly winds, generally fair and warm to-day and Sunday.  
Lower Mainland—Light to moderate winds, fair and warm to-day and Sunday.

Observations at 5 a. m.

Victoria—Barometer, 30.12; temperature, 50; minimum, 50; wind, calm; weather, clear.

New Westminster—Barometer, 30.14; temperature, 54; minimum, 54; wind, 4 miles S. W.; weather, cloudy.

Kamloops—Barometer, 30.02; temperature, 62; minimum, 60; wind, 4 miles S.; weather, clear.

Barkerville—Barometer, 30.36; temperature, 48; minimum, 48; wind, 6 miles W.; weather, part cloudy.

San Francisco—Barometer, 30.56; temperature, 52; minimum, 50; wind, 4 miles W.; weather, clear.

Edmonton—Barometer, 29.98; temperature, 54; minimum, 52; wind, 4 miles W.; rain, .30; weather, part cloudy.

Winnipeg—Barometer, 29.96; temperature, 58; minimum, 52; wind, 10 miles S. E.; weather, cloudy.

Observations taken 5 a. m., noon and 5 p. m., Friday:

Temperature.

Highest.....61

Lowest.....51

Average.....56

Bright sunshine, 10 hours 20 minutes.

General state of weather, fair.

—Seattle, Wash.—S. S. Iroquois leaves daily, except Sunday, at 9 a. m., from Victoria Dock Co.'s wharf, next post office.

—One oil investment that will make you big money—Amalgamated Development Company—Aud. Gwin & McCarty. It has no equal.

## WILL IMPROVE MANY STREETS

### CITY ENGINEER MAKES AN IMPORTANT REPORT

Likely That Asphalt Will Be the Pavement Employed as Standard in Victoria

It has practically been decided that asphalt shall be used very largely on all the streets of the city, residential and otherwise, in future improvement works, and the indications are that this type of pavement will become the standard system in Victoria. This was suggested in the following report from the city engineer, presented at last evening's meeting of the streets committee of the city council:

Gentlemen, I have the following for your consideration:—

1. There have been certain works initiated, upon some of which work has been done, while upon others work has not yet been commenced. It is desirable that in many instances additions should be made to the works and the character of the work changed; that is, in a number of streets curb and gutter has not been put in, and boulevards and sidewalks have been left out, while in others it is desirable to change the rock surfacing or bituminous macadam to asphalt. To make these changes the city solicitor informs me that it will be necessary to close up the bylaws as far as they have gone and take these bylaws to the Lieutenant-Governor-in-Council for his approval. After this new bylaws may be initiated, when the work may be carried out in the manner that they now wish it to be done. The following are some of the bylaws that should be thus closed up:

No. 30—Manchester road, change from rock surface to asphalt.

No. 48—Richardson street, change from rock surface to asphalt.

No. 47—St. Lawrence, change from rock surface to asphalt, adding curb and gutter in two blocks only.

No. 47—St. Andrews street, change from rock surface to asphalt; Quadra street, between Blanchard and Hillside, change from tar macadam to asphalt.

No. 44—Langford street, change from rock surface to bituminous macadam.

No. 25—Gladstone avenue, change from rock surface to bituminous macadam.

No. 40—McKenzie avenue, change from rock surface to asphalt; Fell street, change from rock surface to bituminous macadam.

No. 37—Rockland avenue, between Vancouver and Moss, change from rock surface to asphalt and add curb and gutter and boulevards between Cook and Vancouver.

No. 37—Harbinger avenue, change from rock surface to asphalt.

No. 34—Fernwood road, change from rock surface to asphalt.

No. 51—Leithner street, change from rock surface to asphalt.

No. 23—Craigflower road and Russell street, change from tar macadam to asphalt and add curb and gutter and sidewalk.

2. Mr. Bryson, the assistant city engineer, has sent in his resignation and desires to be relieved as early as possible. I would recommend that his resignation be granted. I propose making Mr. Thomas Donavan superintendent of construction. The engineering will continue to be looked after by Mr. A. O'Meara and his staff, who will lay out the work in advance of the contractors or city construction gangs.

3. Re Pemberton road. In October, 1908, a delegation from Pemberton road waited upon the council, when it was decided to lay permanent sidewalks and gutter on this road. In February, 1909, the city engineer and city assessor reported, estimating the cost of this work at \$12,402. An assessment report was afterwards made, showing the actual cost at \$12,263.92, made up as follows:—Sidewalks, \$5,425.25; tar macadam, \$6,738.67; total, \$12,163.92. The cost of the paving was \$12,163.92 per square yard. The city paid one-third of the cost of the work. The work was initiated by petition.

I believe that the citizens of this street desire to have the present roadway resurfaced with a better class of surface. Prices have been received from the Bitulithic and Worwick Pavement companies, the former offering to put a new surface two inches in thickness of bitulithic, and the latter a new surface three inches in thickness of asphalt, each for \$1.00 per square yard. Either of these pavements are suitable for this roadway, and I would recommend that the city bear one-half the cost of the new surface instead of one-third the cost, as had done with the old pavement.

On the report being taken up serially, there was some debate on clause 1, dealing with street improvements.

Ald. Bannerman said there was no use trying to deal with all this work in the life of the present council. His understanding of the matter was that the idea of the engineer in giving this list of streets was in view of the necessity of a by-law being prepared, providing for the change of materials, which could be submitted to the lieutenant-governor-in-council. One thing stood out very clearly. Rock surfacing had proved a failure. But it was possible that the next council might change any decision reached by the board this year.

Ald. Sargison thought that much of the work could be completed this year. The engineer's department would not be overloaded by deciding on asphalt. The contractors were ready to go on with the work at once.

The question of those streets where it would be necessary to put in lateral connections being raised, it was decided to have a report from the city engineer at Monday evening's meeting, as to work which may be undertaken.

In this connection he wished to mention that every city on the other side of the line was now suffering from what was termed patent exploitation. Finally, on the motion of the mayor, it was decided that all the resurfacing of streets would be done with one class of pavement.

# THE DAVIS CUP HOLDERS

**BROOKS FAMOUS  
REVERSE TWIST**

**EFFECTIVE SERVICE  
CHAMPION'S WEAPON**

Perfect in 1905, Has Won Australian Highest Tennis Honors on Two Hemispheres

One of the most effective weapons in the lawn tennis armory of Norman Brooks is the reverse twist. This stroke, which he has since developed to perfection, was first adopted by him when playing against S. H. Smith in 1905. The latter, at that time the finest driver and baseline player in England, was more than holding his own against the Australian, until Brooks, detecting an apparent weakness, tried a new method of serving, which proved

POSITION FOR THE STROKE.

Immediately successful, and has since dismayed his opponents. Of the illustrations here given, the first depicts the champion in the act of commencing the stroke, the second is taken immediately after the ball has been struck, while the third shows the position of the racket after the follow through. Brooks, of course, is left-handed, but as the majority of left-

DELIVERY OF THE STROKE.

ers are right-handed, it will perhaps be best to describe the stroke as if played by a right-handed man. As a commencement it is best to attempt it in a small way, and when the knack of hitting the ball an upward glancing blow from the right-hand under side to the left-hand upper side—the secret of the stroke—has been acquired, the various movements may be lengthened. It is essential to throw

**WILDING HOLDS  
WORLD'S HONORS**

**NEW ZEALANDER IS  
NOW IN HIS PRIME**

Has Shared in Every Important World's Event With Remarkable Success in Last 11 Years

Because he will be one of America's most dangerous opponents in the next Davis cup matches in December, Anthony Frederick Wilding, who has won the all-England singles, is one of the most important personages in the tennis world of to-day. His defeat of A. W. Gore, holder of the title in the challenge round, and his win over Beals C. Wright in the final, means that Wilding has improved his game of late. In 1903 when the American team went to Melbourne after the Davis cup, Wright beat Wilding by three sets to one, the score then being 3-6, 7-5, 6-3, 6-1.

It is only natural that Wilding should beat Gore, for the New Zealander is only 27 years of age, while the Englishman is 42. With Wilding it is a case of the game being in the blood, for his father, Frederick Wilding, seven times made one of the doubles which won the New Zealand championships. In his early days Anthony was coached by his father, and when 16 won a handicap singles at the New Zealand championship tourney. The following year he won the championship of Canterbury. Then he went to Cambridge university and played against Oxford in 1904.

**Won Many Prizes.**

In 1903 he won many prizes in open tournaments. He won the Scottish championships in 1904, and the same year he captured the singles at Reading, Sheffield, Epsom, Shrewsbury, Eastbourne and Queen's autumn meeting, at Cannes, Barcelona, Paris, Wiesbaden, Hamburg, Baden-Baden and Prague. In 1906 he won the south of France championship and all three-cornered courts championships at the Queen's club. With Norman E. Brooks he won the doubles championship at Wimbledon in 1907, and with Major J. C. Ritchie the doubles in 1908 at Wimbledon, and the same year he covered courts doubles, mixed doubles, South of France championship singles, the Cannes cup, singles at Wiesbaden, Baden, Dieppe, and numerous other prizes. Wilding made one of the doubles champions of Europe at Hamburg in 1908 and with Norman E. Brooks represented Australia against America in the Davis cup matches, when he won the fifth and deciding match from Frederick B. Alexander.

Wilding also represented Australia in the Davis cup matches of 1905 and last year. He won the championship of New Zealand in 1906 and 1908. Wilding won the international singles at Brussels this year. He was formerly a lieutenant in the King's Colonial, and along with being a good cricketer is a keen motor cyclist.

the ball up well to the right of the head when bent to the right, and the body must also be bent to the right

THE STROKE FINISHED.

and backwards. The weight should be mostly on the right foot, and the body almost facing the net. It is useful to have the head of the racket already hanging behind the head before the ball is thrown up, and to hold the racket a little short. Hold the racket rather loosely, and use the feet intelligently. The ball of the foot must be made to assist the movement of the body by acting as a pivot, and the hand be bent well back to help you get under the ball. Careful practice and an intelligent study of the stroke as actually played by Brooks will probably enable most players to master its intricacies.

**THE WRONG EXCUSE.**

"Who has broken the milk jug?"  
"The cat knocked that down, madame."  
"What cat?"  
"Haven't we got one?"—Flegende Blaetter.

Friend (to guide)—Why does your wife always go round with the parties that you take over the castle?  
Guide—She always gives me a tip at the end, and so induces the others to follow suit.—Flegende Blaetter.

## NORTH WARD WINS THE JUNIOR CHAMPIONSHIP

**Very Close Race Among the First Three Teams—Capitals Secure Another Win**

The junior league baseball championship has been decided in favor of the North Ward nine, which was tied with the Oak Bay boys until the deciding match, when North Ward scored 10 to 6. The game went seven innings only on account of darkness. The score by innings was:

North Ward	3	1	3	1	1	0	10
Oak Bay	0	0	4	0	0	0	6

Batteries—North Ward, Meldrum and Williams; Oak Bay, Parbery and Hans. Umpire—W. Gravin.

The teams in the league stand as follows:

	W.	D.	L.	Pts.
North Ward	4	1	1	9
Beacon Hill	4	0	2	8
Oak Bay	3	1	2	7
Central	0	0	6	0

The race was particularly close for the first place, and the three leading teams were just one point behind each other in order of position.

**Capitals Beat North Ward.**

The Capitals beat the North Ward team last night by 7 to 6. The game was close all through, and the spectators saw a good game. To-morrow the Capitals will play at Sidney, and will be represented by White, p.; Pike, c.; James, l.b.; Irvine, 2.b.; Mite, 3.b.; Dray, s.s.; Croghan, r.f.; Hawk, c.f.; Simpson, l.f.

## SCHWENGERS TO PLAY FOR FINAL

**MISS POOLEY LOST TO MISS PHILLIPS**

**Finals of Provincial Tennis Championships Being Played This Afternoon**

R. P. Schwengers, the Island tennis champion, yesterday afternoon maintained his superiority in the tournament for the championship of the province being played at the Victoria club courts by defeating Marshall three sets to one in the semi-finals, and winning the right to play for the championship against Joe Tyler, the Spokane player, to-day. Schwengers won two singles matches yesterday, having defeated his brother in the morning games.

Schwengers and Camble captured the men's doubles by defeating the Vancouver pair, Gilliat and Jukes, 6-4, 6-4. A surprise for the onlookers was the downfall in the ladies' singles of Miss V. Pooley, who was defeated in the semi-finals yesterday afternoon by Miss Phillips in a three-set match. Miss Phillips also defeated Miss Pearce in two sets.

The finals of the tournament are being played this afternoon and the prizes won are to be presented at the close of the matches by Mrs. R. P. Rithet. The results yesterday afternoon were:

Men's singles—R. Schwengers beat Marshall, 6-2, 5-7, 6-1, 6-2, and won the right to challenge Tyler for the championship.

Men's doubles—Schwengers and Camble beat Gilliat and Jukes, 6-4, 6-4.

Ladies' singles—Miss M. Phillips beat Miss A. Bell, 6-1, 6-1; Miss Phillips beat Miss Pearce, 6-2, 7-5; Miss Phillips beat Miss Pooley, 6-2, 7-5, 6-4.

Ladies' doubles—Misses Haynes and Miss Phillips beat Mrs. Green and Miss Robertson, 6-0, 6-1; Miss Pitts and Miss Pooley beat Miss Hobson and Miss Allan, 6-3, 6-1.

Mixed doubles—Marshall and Miss M. Pitts beat Mattern and Mrs. Langley, 6-4, 5-7, 6-2.

Consolation singles—J. Rithet beat S. B. Montgomery, Vancouver, 4-6, 6-1, 5-6.

### COAST CHAMPIONSHIP.

Long Beach, Cal., Aug. 6.—The galleries of the Virginia hotel courts this afternoon will be the Mecca for tennis lovers from all parts of the coast, as well as experts from the east who are here to see the challenge matches in the southern California lawn tennis tournament.

Before noon all the finals except in the ladies' singles will have been played. The holders of the various titles will defend their trophies after luncheon. At 1:30 p. m. Nat. B. Brown, winner in the men's singles finals, will play Winfred H. Mace, title holder.

At 3 o'clock Miss May Sutton will play her sister, Miss Florence Sutton, in the ladies' singles finals.

At 4 o'clock the challenge round in the men's doubles between Ward Dawson and S. M. Sinsabaugh and Alphonse E. Bell and Nat. B. Brown, holders, will be played off. At the same hour the finals in the ladies' doubles will be played.

## SPORT NOTES

Jess Baker, the big Spokane south-paw pitcher, has been sold by President Cohn, of the Indians, to the Chicago White Sox. While the deal is not entirely closed, the only formality lacking is the agreement as to the amount of money down that Cohn is to get for Baker. Baker is the most sought-after player in the league this season and it is said that the price paid for him sets a league record.

The British Columbia Amateur Swimming Association will meet to-night at the Gorge camp. It is the annual meeting, and officers will be selected and business for the year wound up.

The lacrosse twelve, as selected left on the Vancouver boat last night, and this afternoon are playing the Vancouver twelve.

Hans Wagner, who draws a salary of \$10,000 per annum from the Pirates, is said to be quitting this year. Chase is dissatisfied with his treatment by the management of the New York Highlanders.

Victoria senior amateur lacrosse team is playing in a double-header this afternoon. The team plays Vancouver prior to the Westminster-Vancouver game at the Recreation park, Vancouver.

The Capital City amateurs will have a chance of seeing the Minto cup holders play the game, and may learn something. If they do not it will be their own fault.

Spokane has a very short lead on the Northwestern pennant and the Beavers are right in line. Brown's men should recover their ground and beat Spokane for the first position before the close of the season. The race is the closest the league has ever known.

Thursday week Arnet and Barry row for the world's sculling championship on the Zambezi river, South Africa.

There are 125 varieties of strawberries.

The men who uphold the standard of sport to-day are clean men—clean of action and clean of face. Your baseball star takes thought of his personal appearance—he starts the day with a clean shave—and, like all self-reliant men, he shaves himself.

Wagner, Jennings, Kling, Donovan, Chance—each of the headlines—your local "South Paw"—your home-run hitter—owns a Gillette Safety Razor AND USES IT.

The Gillette wins the pennant in the Razor League every year and undoubtedly is the World's Champion.

The Gillette is typical of the Canadian spirit. It is used by capitalists, professional men, business men—by men of action all over this country.

Its use starts habits of energy—of initiative. And men who DO for themselves, think for themselves.

Be master of your time. Buy a GILLETTE.

Standard Set, \$5. Pocket Editions, \$5 to \$6. Sold everywhere. The new Gillette Sign is the thing to look for. It denotes the dealer who handles both Gillette Razors and Blades. Look for the Sign.

**GILLETTE SAFETY RAZOR CO. OF CANADA, LIMITED, MONTREAL.**

ternoon. The team plays Vancouver prior to the Westminster-Vancouver game at the Recreation park, Vancouver.

# THORPE'S SODA WATER

Made From Water From Which All Germs Have Been Removed

# The Times' New Home

Record in  
Concrete Work

Exceptionally good progress is being made on the construction of the fine building at the corner of Broad and Fort streets, which will house the Times this fall. This structure, which is six stories with the basement, was commenced on April 28, is now well on the way to completion, and will be ready for occupancy not later than the end of September.

What is said to be the fastest run of concrete ever made in British Columbia on any building of this description, was made recently, when 25 men under the supervision of A. J. Murray, manager for Adkison & Dill, the contractors, completed the last two floors in fourteen days. All concrete work has now been done and considerable progress made with the brick and stone work. The plastering of the interior will be commenced in a few days.

Briefly described, the new quarters for the Times consist of a dignified building rising five storeys above the

street level and constructed of concrete on the Kahn system of reinforcement. The exterior is faced for one storey above the ground with Denman Island stone, the remaining storeys being covered with Los Angeles buff-colored brick. The dimensions of the building are 76 feet by 53 feet, giving a total floor space of 23,832 feet. Many windows will provide plenty of light and the building will be equipped with the most modern contrivances, including vacuum cleaning apparatus.

The interior will be handsomely decorated, the walls of rooms and corridors being colored in a delicate buff and the ceilings ivory. The floors will be of maple and birch and the floors of mahogany and birch. In the business office there will be a very handsome counter of solid mahogany, with bronze grille gates and other up-to-date equipment.

The ground floor will be occupied by the business offices, the fourth floor by the editorial department and the fifth

floor by the composing room. The presses will be in the basement. On the second and third floors will be a number of splendidly fitted offices, nearly all of which have already been engaged.

In the planning of the building every attention was paid to the requirements of the modern newspaper and provision has been made for the adequate accommodation of every department. Not only has this feature of the building been developed in the arrangement of the interior but the comfort of the large staff now employed by this paper has been given every consideration.

The accompanying photograph, taken a few days ago, shows the progress which has been made on the building and gives a fair idea of its size and general arrangement. As it shows, the building, like so many other of the city's modern business blocks, suffers from a disfigurement from the presence of an ugly telephone pole on the street corner.

## CITY CLERK HAS HUMBER'S RESIGNATION

Will Come Before Council on Monday Evening and Probable Date for By-Election Set

Ald. Humber late yesterday afternoon handed in his resignation to W. J. Dowler, city clerk, and the same will come before the city council on Monday evening. It is anticipated that the resignation will be accepted at once, and thus a bye-election will ensue in about ten days.

Wm. W. Northcott, returning officer, said this morning that while the act specifies that an election shall be held within ten days of the acceptance of the resignation, the council may defer acceptance as it sees fit. Therefore it is impossible as yet to state when the bye-election will be held.

Ald. Humber, in his letter to the city clerk, explains his position much the same as contained in the announcement of his intention to resign appearing in last evening's Times. In this connection the following announcement has been made by Messrs. Dinsdale & Malcom, contractors:

August 5th, 1910.  
We, the undersigned, wish to express our regret that we should in any way have contributed to the disqualifying of Ald. Russ Humber by the purchase of brick from the Humber estate. The building inspector wished some repairs done, which required about 1,500 bricks. As we have been supplied solely by the Humber estate for years, it was clearly an oversight on our part that we did anything to imperil his standing as an alderman. In fact our own team hauled the brick unknown to Ald. Humber, and we feel that we are responsible for the unfortunate occurrence. The people of the northward can ill-afford to lose such an able representative, and we hope that the alderman will stand for re-election, and we are sure that he will be elected by acclamation.

DINSDALE & MALCOM,  
Contractors.  
Ald. Humber will again be a candidate at the bye-election, and the consensus of opinion is that he will be re-elected.

## NOTICE

IN THE SUPREME COURT OF BRITISH COLUMBIA.

In the Matter of Yoneda Nakahayashi, Also Known as Tongaso Nakahayashi, Deceased, and in the Matter of the Official Administrator's Act.

Notice is hereby given that, under an order granted by the Honorable Mr. Justice Clement, dated the 27th day of July, A. D. 1910, the undersigned, was appointed administrator of the estate of the above deceased. All parties having claims against the said estate are requested to send particulars of same to me on or before the 3rd day of September, 1910, and all persons indebted to said estate are required to pay such indebtedness to me forthwith.

Dated at Victoria, B. C., this 3rd day of August, 1910.

WM. MONTEITH,  
Official Administrator.

# The Fort George Tribune

The Pioneer Newspaper of Central British Columbia

**F**OUNDED BY JOHN HOUSTON, the Newspaper Trail Blazer of Western Canada, and edited by Albert Dollenmeyer, and the only newspaper printed in Fort George. A Newspaper that prints all

the news—or at least as much of it as is worth while, and that can be crowded into its fourteen-inch columns. The only paper that is in a position to give first hand information as to progress in Fort George and its great tributary country, including the Salmon River and William River country, the Nechaceo Valley, the Babine, Stewart and Nation Lake and the Omenica country. Politically non-partisan and independent, The Tribune aims to reflect the happenings, the views and the hopes of the people who are to-day laying the foundations of a big Canadian city at what until a year ago was a lonely fur-trading post. The Tribune's further mission is to give outsiders reliable information as to the immense natural resources tributary to British Columbia's Central Commercial Capital. Its readers will tell you that The Tribune is succeeding in both these aims. If you want to know what is going on at this city in the making, send \$3.00 and The Tribune will undertake to keep you posted for 52 weeks.

## REGIMENTAL ORDERS.

Major and Adjut. W. Ridgway Wilson has issued the following regimental orders by Lt.-Col. A. W. Currie, commanding Fifth Regiment:

Militia order—The following extract from M. O. 287, 1910, is published for general information: "The following certificates of military qualification are granted: Cpl. F. J. Fleury, signalling 'A' grade; Cpl. C. W. Birch, signalling 'B' grade; Gnr. G. A. R. Wilson, signalling 'B' grade."

District order—The following extract from D. O. No. 24, 1910, is published for general information: "Board of officers. A board of officers composed as under will assemble at such places and at such times as the president may direct for the purpose of selecting a suitable site for a rifle range in the vicinity of Victoria; instructions for the guidance of the board have been placed in the hands of the president. President, Lt.-Col. A. W. Currie, O. C. 5th Regt. G. A. members, two officers of the 5th Regt. to be detailed by the O. C. Proceedings in duplicate to be forwarded to D. O. C., M. D. No. 11." In pursuance of the above the officer commanding has been pleased to appoint the following officers on the board: Major W. Ridgway-Wilson and Captain W. V. Winsley.

Re-engaged—The following N. C. O.'s and men, having re-engaged, are continued on the strength for a further term of three (3) years: Rgtl. Qr. Mr. Sgt. W. H. Lettice; C. Q. M. Sgt. A. Brayshaw; Cpl. J. R. Stanforth; Gnr. A. Macdougall.

Officers' meeting—The regular monthly meeting of the officers mess will be held in the drill hall on Thursday, August 11, at 8.30 p.m. Dress, mufli.

## ST. ANDREW'S SOCIETY SMOKER.

The success of their last smoker has induced the members of St. Andrew's Society to hold a similar entertainment on each alternate meeting night throughout the season. The second of the series will be held on Monday evening after the regular business of the society has been transacted. The committee in charge of arrangements has prepared an excellent concert programme, and look for a record crowd. Snacks and refreshments will be served during the evening. T. M. Brayshaw, president of the society, will occupy the chair. These entertainments are being held with a view to increasing social intercourse among the members, and also to give new members, of whom over thirty have been admitted during the last two months, the opportunity to become acquainted.

**CONTRACT WORK  
VS. DAY LABOR**

(Continued from page 1.)

sulted with the engineer and felt con-  
fident that he would be able to do the  
work in time and at a much lower fig-  
ure than that of the lowest tenderer.Ald. Raymond felt that the matter  
was one of some importance. The pro-  
perty owners on Yates street were very  
anxious that the work should be done  
this season, and, as they would be will-  
ing to pay the difference between the  
estimate of the engineer and the low-  
est tenderer, he thought the bid of Mr.  
Stedham should be accepted. As a  
matter of fact the city staff was too  
busy now to do the work this year.Mr. Smith, the engineer, explained  
that he had consulted Thos. Donovan  
that morning and had been assured  
that there would be no difficulty in  
completing the work this season.Replying to a question from the  
chairman, the engineer said he would  
not like to bind himself that the ex-  
penditure on the work would not ex-  
ceed the exact amount specified in his  
estimate, but he had every confidence  
in the accuracy of his figures.Ald. Bishop felt that if the city en-  
gineer had any doubt whatever about  
his ability to complete the job for the  
sum mentioned in his estimate, the  
work should be done by contract, es-  
pecially in view of the fact that the  
season was getting on and the civic  
staff was already overcrowded with  
work.Ald. Mable thought the city engineer  
would find difficulty in getting suffi-  
cient labor. There was a scarcity of  
men all over the city. Then again,  
Douglas street was a big job which  
would tax the resources of the works  
department to get completed before the  
wet weather set in.Ald. Ross was in favor of having  
the work done by contract.  
Replying to a question, Ald. Banner-  
man explained that the engineer's es-  
timate of the cost of the work was \$8,  
923 and the next lowest figure that of  
Mr. Stedham, \$8,824.Ald. Fullerton was prepared to accept  
the estimate of the city engineer with-  
out question. Was the board prepared  
to throw away \$1,900 of the citizens'  
money? As for Mr. Stedham's work  
for the city he could say that he per-  
sonally was disgusted with it. He cited  
the case of a cement sidewalk on Qua-  
dra street which had lately been laid  
by Mr. Stedham's company. It was a  
botched job, in his opinion. The work  
done by the city was far superior. He  
was surprised at the attitude of the  
council towards the city engineer. It  
seemed to him that this suggestion of  
turning down his estimate savored of  
want of confidence.Ald. Sargison said there was no want  
of confidence in the engineer. The  
latter had himself just said that he  
was not absolutely sure of his esti-  
mate. The engineer would not put up  
a bond as a guarantee that the esti-  
mate would not be exceeded. His fig-  
ures were only to be taken as an ap-  
proximation to check the contractors'  
bids. There were exceptional circum-  
stances in connection with the work  
to be done on Yates street and as the  
city staff had its hands full he would  
be in favor of having the work done by  
contract. The engineer would find dif-  
ficulty in getting sufficient men. They  
got better wages from the contractors.  
Ald. Fullerton believed that there  
was no man in the city who could get  
better work from a gang of men than  
Thos. Donovan.Ald. McKee expressed surprise  
that if Mr. Stedham's contract had  
been so badly executed it had been  
taken over by the city.The city engineer said he had not yet  
passed it, nor would he do so until he  
was satisfied with the work.Mayor Morley interjected a remark to  
the effect that the Empress hotel side-  
walk in front of the Empress hotel  
was a botched job.It was finally decided to allow the  
engineer to do the work, and the re-  
commendation of the chairman of the  
committee and Mr. Northcott to this  
end was adopted.Mr. Stedham's letter was received  
and filed.**NEW YORK STOCKS**

**IS ENGINEER'S  
HEAD TO FALL?**

(Continued from page 1.)

worship suggested that it might be de-  
sirable for the engineer to consider the  
expediency of surrendering his position,  
accepting from the city a year's salary  
as remuneration.It has also been ascertained that it  
is probable that the council, at its  
meeting on Monday evening, will not  
accept the resignation of G. H. Bryson,  
assistant city engineer, but, instead,  
allow a month to elapse before doing  
so. In this event the by-law giving the  
engineer full power to hire and dis-  
miss all his employees will not be re-  
considered and finally passed, as would  
ordinarily be the course of procedure,  
were it not for the new and unexpected  
situation which has developed.Mr. Smith came to Victoria from Re-  
gina. He bore the highest testimonials  
as to his ability and has had large and  
wide experience in engineering in some  
of the prominent cities in the Do-  
minion.Several aldermen were seen this  
morning and all admitted that the  
mayor was authorized to convey the  
intimation above stated to Mr. Smith.  
It is one of the possibilities that  
City Engineer Smith may demand spe-  
cific charges and a full and impartial  
investigation.**REWARD OFFERED.**Chicago, Aug. 6.—In an effort to  
prove that Ira G. Rawn, president of  
the Honon Railroad was murdered and  
did not commit suicide as hinted in a  
coroner's jury verdict, a reward of \$5,  
000 has been offered by the Rawn es-  
tate for information leading to the ar-  
rest and conviction of his murderer or  
murderers. Mr. Rawn was found dead  
in his home at Winnetka on the morn-  
ing of July 20.

SHIPBUILDER COMING  
TO VISIT VICTORIA

George R. Hunter Arrived in Montreal To-day on His Way to the Coast

(Special to the Times.) Montreal, Aug. 5.—George R. Hunter, chairman of the firm of Swan, Hunter, Wigham & Richardson, arrived here to-day to look into their Canadian business.

"We may tender for the Canadian navy," he said, "but it will cost a great deal more to build the ships in Canada than it would at home."

Mr. Hunter is on his way to the Pacific coast, and will stop off at all important places.

Swan, Hunter, Wigham & Richardson have built a number of passenger steamers for this coast. These include the Princess Charlotte, the Prince Rupert and Prince George, and they are now building the Princess Adelaide for the C. P. R.

## INSPECTOR REPORTS.

Fishing on West Coast in Keeping With Other Points in Province.

Inspector of Fisheries E. G. Taylor returned from Nanaimo yesterday from a trip of inspection along the west coast, visiting the salmon traps, the several canneries, Sechart whaling stations and the two hatcheries in course of construction at west coast points. The inspector reports the fishing industry booming along the west coast of the Island. On Sunday week Ternans canneries at Uchucklest make a record single haul of 16,000 salmon. Mr. Brewster's cannery at Clayoquot being also well supplied with fish, and the traps reporting good hauls. Mr. Taylor states the Anderson Lake hatchery and the Kennedy Lake hatchery are nearing completion, and the whaling station at Sechart enjoying a prosperous season. The day the inspector visited that point there were five whales brought in to the station.

FISH TRUST IS  
BEING FORMED

MACKENZIE AND MANN UNITING ALL INTERESTS

Will Erect Large Soap Works in Connection With Whaling Industry on Coast

The establishment of a giant deep-sea fisheries trust on this coast is the aim of Mackenzie & Mann and associates at the present time, according to reliable information received this morning by the Times. They are trying to buy out the New England Fish Company, which handles practically all the halibut caught on this coast; they have already bought the Pacific Whaling Company interests; and they will also take over the Pacific Coast Fisheries plant at Pacific, Queen Charlotte and all the other deep-sea fishing interests in British Columbia.

In connection with their whaling operations they propose operating an immense soap factory, so that the oil, instead of being shipped away to Glasgow, will be manufactured in the province. The Alaska Whaling Company's interests are also included in their operations, so that all the whaling of the coast and the deep-sea fisheries of British Columbia will be included in the scheme. Large freezing stations will be operated in connection with the fisheries so that the fish may be frozen directly as they are caught and sent to the markets of the world as a cake of ice and in as perfect condition as when they were taken from the sea.

As soon as the properties and charters have all been secured, stock in the trust will be placed on the market, and the public will be given an opportunity of taking shares in it. It is expected that by operating in a large way the trust will be able to secure much better markets and to work much more economically than a number of smaller firms could possibly do. It will have agents in all the principal markets, at Billingsgate and other parts of the world, and will practically control the market for the fish which this coast supplies.

As soon as possible the operations of the trust will be extended to include a number of other allied industries. The operations of the trust is expected to have a far-reaching influence in the development of this coast. For some years financiers have been taking a great interest in affairs here and this is the culmination of a series of investigations. The agents of Mackenzie & Mann have been conducting their investigations for some time and their favorable recommendations have resulted as stated above.

FRASER-SALMON. Vancouver, Aug. 5.—Fewer salmon came to the nets of the fishermen around the Fraser's mouth yesterday. The total catch only amounted to 75,000, of which number the Fraser River Packers' boats got about 50,000. Imperial and Ewen's headed the list with 9,000 each. Vancouver Cannery coming next with 7,500. Gulf of Georgia reports 6,700. Phoenix 5,000. Scottish Canadian 4,000. St. Mungo 3,500. Brunwick 3,000. and British Columbia 2,500.

Steamer Empress of India arrived this afternoon after being delayed considerably by fog when coming up the straits. She has the usual consignments of silk and tea, as well as a large number of passengers, most of whom proceeded to Vancouver.

CAPITALISTS RETURN  
FROM WEST COAST

Whaling and Fishing Very Successful—Dredge Unable to Operate at Alberni

One or two groups of financiers arrived this morning from the West Coast, where they have been investigating the timber and mines, and it is stated that they were very favorably impressed with what they saw. As a result it is expected that there will be some active developments in that part of Vancouver Island. Mr. H. Jones had one of these parties with him to some mining properties in the neighborhood of Anderson Lake, near Uchucklest. They went to see some copper properties which look very rich. They were also to Sechart and other points in the neighborhood. They are said to represent a large amount of capital.

Word was brought by the steamer that the dredge Frubling, which went to Alberni to dredge out a channel to the old wharves, has found it impossible to do the work. The bottom of the channel is so hard and so filled with stumps that the dredge cannot operate.

Word was also brought that the salmon fishing on Clayoquot and Uchucklest has been very successful this year, and that the whales continue to come in to the Sechart station. An arrival from Rose Harbor also states that there are more whales being taken at the Queen Charlotte than the station knows what to do with.

Among the fifty odd passengers who returned on the steamer were H. Dalby and party, who have been in Alberni for a holiday, and Mrs. Smith and Miss Hastings, who are also returning from a holiday trip. The steamer will leave for the West Coast again to-morrow night.

## Fountain Pens

The Kind That Are Reliable  
PRICED FROM \$3.00 UP

A Fountain Pen is an article which must give satisfaction. No doubt you are conversant with the many grades offered you on the market to-day, many of which find their place either in the waste paper basket or fire. Possibly they leak, or the flow of ink cannot be regulated.

Waterman's and Conklin Pens are world-famed. These names are a guarantee to your getting perfect satisfaction in any pen you buy made by these famous firms.

# Public Opinion Is a Good Barometer to Trust to

But a better and infallible guide is your own judgment based upon careful comparison. Either, in this case, however, will prove to you that when you buy at Weiler Bros. you never fail to accomplish one of two things—to save in cost, or gain in quality.

Rather than confuse you with a mass of figures to-day, we quote a few bed prices and ranges of prices from our Furniture Department:

BABIES' CRIBS up from .....\$8.50 IRON BEDS, 3/4 size, from .....\$3.25  
IRON BEDS, single sizes, from .....\$3.00 IRON BEDS, full size, from .....\$3.50

In Brass Beds we display a most magnificent assortment, and those who are thinking of purchasing a bed of this class will do well to inspect our showing first.

WICKER CHAIRS—  
In Sea Grass, from .....\$5.50  
Reed Chairs, from .....\$5.50  
Rockers, sea grass, from .....\$6.50  
Various designs and colors in Linen Chairs, priced up from .....\$9.00

CHAIRS for the Dining room, Drawing room, Bedroom or Kitchen, range all the way from \$40.00 down as low as .....\$1.00  
DINING ROOM TABLES from \$65.00 to .....\$7.50  
BUFFETS AND SIDEBOARDS from \$200 to .....\$15.00

## Does Your Office Look Well?

If it doesn't we would suggest that you take a stroll through our Office Furniture Department, where you can obtain EVERYTHING in the direction of office furniture.

### ROLL TOP DESK

The low style in the roll-top desk is a very popular desk with many business men. Our selection of this style of desk embraces many stylish and well arranged desks. Prices range:

\$35, \$40, \$45, \$50, \$55, \$125, \$150

### HIGH ROLL STYLE

The high roll top style gives more space for the convenient storage of papers, etc., and is therefore favored by many business men. There are many styles and a big choice of prices:

\$25, \$38, \$45, \$50, \$60, \$80, \$85, \$140, \$150

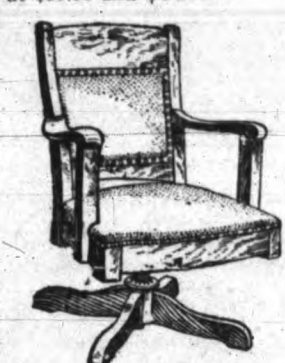

### "SANITARY" ROLL TOP DESKS

The "Sanitary" desk—the desk on legs—appeals to many, and is a much-asked-for style. We have several styles in this desk, in golden finished oak, at

\$30, \$40, \$50, \$55, \$60, \$115  
We have a very attractive "sanitary" desk in Early English finished oak. Priced at \$50.00 and \$55.00.

### TILTING OFFICE CHAIRS

We show a splendid assortment of these chairs in golden finished oak and in Early English finished oak. Some are upholstered in leather. Many styles to choose from. Priced from \$7.50 to \$18.00.

OFFICE STOOLS, for high desks, in several styles. Some wood seats, some cane seats, some revolving seats. Priced at \$2.50, \$1.50 and .....\$1.25

## AMONG THE CHURCHES

### PRESBYTERIAN.

#### First Church.

Presentation.—Last evening the teachers and officers of the Sunday school of First Presbyterian church assembled at the residence of John Weston, superintendent of the school, the object being to present Mr. and Mrs. McKee with a token of appreciation of their services as teachers. Mr. and Mrs. McKee are just home from their honeymoon trip, and reside in their comfortable new house on Cadboro Bay road. Mr. Jamieson, secretary, read an address expressing for them a hope for a very happy and useful life, which address was signed by the superintendent, secretary, and treasurer of the school. Mr. Weston made the presentation of a beautiful clock. Mr. McKee, for himself and wife, in a short and appropriate address thanked the teachers for their gift. Delightful refreshments were served in the dining room, under the supervision of Mrs. Weston and Mrs. Norman. The evening was enjoyed in music and games, and the party broke up about 11 o'clock.

### BAPTIST.

#### First Church.

Special Sermon.—Pastor Warnicker will preach a special sermon to-morrow evening on the theme, "Does It Matter What We Believe?"  
Temporary Building.—At a well-attended business meeting of the church on Thursday evening last it was unanimously decided to proceed immediately with the erection of a temporary building that may be used until such time

as the new building is ready. The meeting was well attended and it was evident that every member was deeply grateful to know that a church home is now assured. Perfect harmony on all the matters discussed at the lengthy meeting augurs well for the united effort necessary to carry out the project. J. C. M. Keith, the well-known architect of this city, drew the plans and specifications and will supervise the construction. These plans testify to Mr. Keith's ability as an architect, and especially in church architecture. The building will be 80 feet long over all and nearly 40 feet wide, and will have a seating capacity in the vicinity of 300. A basement under the entire building will be very well lighted.

**LUTHERAN.**  
Grace Church.  
New Building.—At a congregational meeting on Wednesday evening the contract for the proposed church building was let to L. P. Fredrickson for \$6,000, exclusive of furnishings. The meeting was well attended and it was evident that every member was deeply grateful to know that a church home is now assured. Perfect harmony on all the matters discussed at the lengthy meeting augurs well for the united effort necessary to carry out the project. J. C. M. Keith, the well-known architect of this city, drew the plans and specifications and will supervise the construction. These plans testify to Mr. Keith's ability as an architect, and especially in church architecture. The building will be 80 feet long over all and nearly 40 feet wide, and will have a seating capacity in the vicinity of 300. A basement under the entire building will be very well lighted.

## CONFERENCE OPENS SOON

### GREAT LEGISLATIVE METHODIST BODY

Sessions Begin With Church Services on Sunday Next—Local Arrangements

The eighth session of the General Conference of the Methodist church will assemble in this city on August 14, and the prospects are that this meeting of the great legislative body of the Methodist church will be one of the most important and interesting ever held. Great issues will be discussed and the interest that is being taken in the meetings is very widespread.

The delegates proper number 350 and the local committee have been very busy trying to place these in homes and boarding-houses. But apart from those who have been elected by their

various conferences as official delegates a very large number have signified their intention of being present at the gathering. From every part of Canada the committee has received letters stating that friends will accompany the delegates and asking that reservations be made for them in hotels or boarding-houses.

A special train leaves Toronto early on Monday morning and the visitors will make brief calls at places of interest en route, arriving in this city on Saturday evening next. The reception committee will meet them at the wharf and will endeavor to distribute all to their various homes as quickly as possible.

Three of the great leaders of the church will be missed sadly when the conference assembles for business. These are the great Dr. Potts, who passed away in 1907, Rev. Dr. Withrow, the man who became so well-known to all Methodist Sunday school scholars as the editor of Onward and other favorite papers; and the greatest of all missionary secretaries, Rev. Dr. Sutherland, so well-known and so well beloved by the Methodists of British Columbia and of all Canada. Portraits of Dr. Potts and Dr. Sutherland, by the celebrated Canadian artist, J. W. L. Forrester, will be hung in the conference church, suitably draped, and in the programme and bullet list portraits of all three departed leaders will appear.

Rev. Dr. Carman, veteran leader and master of assemblies, will be present to preside over the conference, and as his eight-year term as general superintendent expires with this conference, speculation is rife as to who will be his successor. Many are of the opinion that the strong old man will be re-elected for another term by a substantial majority, as nothing short of insistent resignation or death would lead to his rejection for the high office. He is recognized as a master

among masters in guiding the affairs of a great gathering, and during the warm and exciting debates which will take place during the sessions the conference will be safe with him to wield the gavel.

Rev. T. Albert Moore, D.D., secretary of the Lord's Day Alliance, is also secretary of the general conference, and so satisfactory has been his work that there is very general talk that he will be re-elected to the office. He will arrive in the city on Wednesday next to assist in the final preparations at the Metropolitan church for the assembly.

The conference opens with some great services in the Metropolitan church on Sunday, August 14. There will be a conference love feast at 9.30 a. m. in the church, led by the Rev. Dr. Sparling of Winnipeg. At 11 a. m. the Rev. Henry Haigh, M.A., representative of British Wesleyan conference, will preach. At 7.30 p. m. the popular former pastor of the church, Rev. Solomon Cleaver, D.D., will preach, and it is expected that there will be a record crowd to hear this very popular pulpit orator.

The reception committee is still short of billets for delegates, and would be very glad if any citizens who can entertain delegates, or who would pay for them in hotel or boarding-house, would notify Rev. A. E. Roberts or 'phone 220.

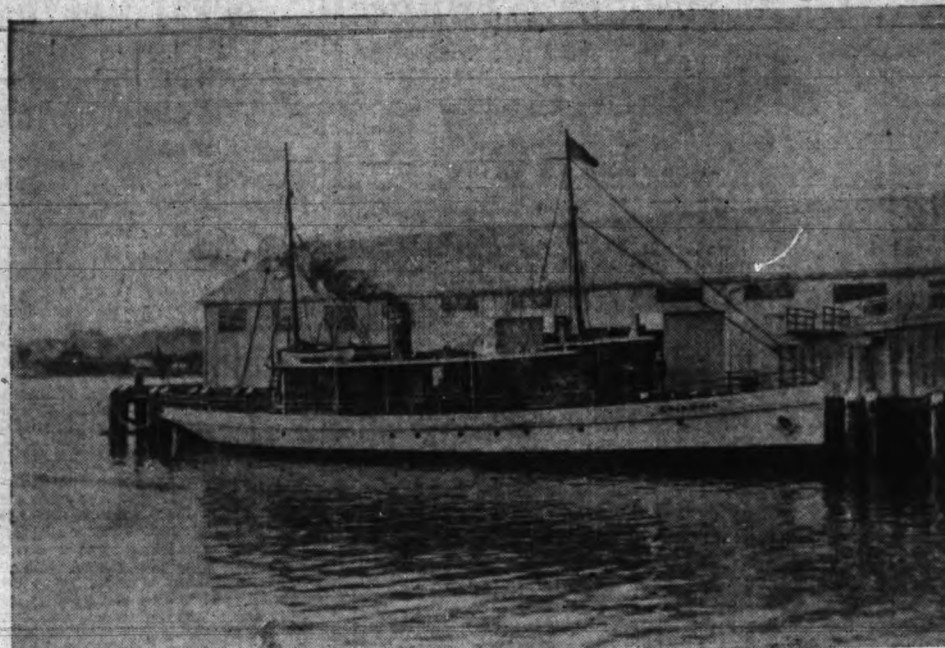

The programmes for the Sunday services during the two Sundays the conference will be here are as follows:

**IN THE CONFERENCE CHURCH.**  
August 14th.  
9.30 a. m.—General conference love feast, led by Principal Sparling of Wesley college, Winnipeg.  
11 a. m.—Rev. Henry Haigh, M.A., representative British Wesleyan conference.  
2.30 p. m.—Mass meeting of the Sunday schools.  
7.30 p. m.—Rev. S. Cleaver, D.D. The general conference sacramental service at the close of the evening service.  
August 21st.  
11 a. m.—Rev. Freeman B. Bovard, D.D., representative M. E. church.  
7.30 p. m.—Rev. H. M. DuBois, D.D., representative M. E. church, South.

**IN OTHER CHURCHES.**  
August 14th.  
Centennial, 11 a. m.—Rev. W. H. Hinks, D. D.; 7.30 p. m., Rev. R. P. Bowles, D.D.  
Victoria West, 11 a. m.—Rev. G. W. Henderson; 7.30 p. m., Rev. J. A. Rankin, D. D.  
James Bay, 11 a. m.—Rev. J. M. Har-

## COAST MISSION STEAMER "COLUMBIA."

Which was dedicated by Bishop Perrin yesterday afternoon for work among the toilers of the sea.

Nearly 300 people gathered upon the G. T. P. wharf yesterday afternoon to witness the dedication of the Columbia coast mission's new hospital steamer Columbia by Bishop Perrin. The clergy of the city were well represented, and members of the choirs of several churches were present. The oratory of the vessel was first dedicated by his Lordship, who made a brief address appropriate to the occasion. The massed choir then assembled on the after deck where, under the direction of Choirmaster Percy Wollaston, a service of song was carried out.

Following the reading of a lesson by Archbishop Scriven a short but effective eulogy of the mission work was delivered by Bishop Perrin, who paid tribute to the zeal and energy of Rev.

REV. JOHN ANTLE, Who is in Command of the "Columbia."

John Antle, through whose efforts the building of the first mission steamer was accomplished. Following the ceremony visitors were allowed to inspect the steamer and \$109.35 was contributed to the fund for its operation in addition to donations of 67 useful articles. The Columbia left port this morning for Vancouver, and will commence its work of visiting the logging camps of the north, taking spiritual and physical comfort to the men of these lonely industrial communities very shortly. Capt. Gusheau is in charge of the steamer with a crew of four men. Rev. E. R. Nivlin, M. A., M. D., acting as clergyman and surgeon, has charge of the medical department. Rev. E. C. Owens, of Vancouver, and Rev. Seeger, of Toronto, came over as guests on the Columbia.

## MISSIONS IN SOUTH AFRICA.

Those who complain of or rail at missionary work in Africa, and who confine themselves to pointing out the undoubtedly too numerous errors of the missionaries and shortcomings of their flocks, would do well to consider that even if the light which has been let in is but feeble and gray it has at least dispelled a worse than Stygian darkness. As soon as native African religions—practically none of which have hitherto evolved any substantial ethical basis—develop beyond the most primitive stage they tend, notably in middle and western Africa, to grow into malign creeds of unspeakable cruelty and immorality, with a bestial and revolting ritual and ceremonial. Even a poorly taught and imperfectly understood Christianity, with its underlying foundation of justice and mercy, represents an immeasurable advance on such a creed.

Where, as in Uganda, the people are intelligent and the missionaries unite disinterestedness and zeal with common sense, the result is astounding. The majority of the people of Uganda are now Christian, Protestant or Catholic; and many show their Christianity in practical fashion by putting conduct above ceremonial and dogma. Most fortunately, Protestant and Catholic seem now to be growing to work in charity together, and to show rivalry only in healthy effort against the common foe; there is certainly enough evil in the world to offer a target at which all good men can direct their shafts, without expending them on one another.

We visited the Church of England mission, where we were received by Bishop Tucker, and the two Catholic missions, where we were received by Bishops Hanlon and Streicher; we went through the churches and saw the schools with the pupils actually at work—From "African Game Trail" by Theodore Roosevelt, in the August Scribner.

Military engineers are practically agreed that no material for fortification is superior to earth. When clay is not obtainable, as on the seashore, sand is collected into bags, and these are laid in regular heaps along the line of the proposed fortification. In such a fortification the balls from the enemy's cannon sink without doing any damage, and shells explode harmlessly.

It has been announced in the House of Commons that nickel pennies and two-penny halfpenny coins will not be adopted in the Old Country.

REV. S. J. THOMPSON, NANAIMO, Who Will Be One of the Speakers at the Christian Endeavor Convention Next Week.

doubted when the convention commences next Wednesday. Much interest is being taken in the event by the young people's societies of the province and the programme is a most attractive one.

The president of the union, Rev. Hermon A. Carson, of this city, has taken a very active part in securing the notable list of speakers and has succeeded in enlisting the help of some who are experts in the line of young people's work.

On Wednesday evening next the delegates will be received in the school room of St. Andrew's church at 8 o'clock and assignments made for the entertainment of the visitors. The

## The Plants Show You Why

Why do your plants soon wither and die in the house in winter? BECAUSE the house lacks moisture—BECAUSE the kind of Furnace you have is giving off a dry, unnatural, parching heat. The average Furnace does this because in warming the air it dries out the natural humidity of the atmosphere and fails to replace it. Instead of the 70% average humidity of the outside air—your present furnace heated air probably contains less than 30% of moisture.

The Remedy is in the Circle Waterpan OF THE "Good Cheer" Furnace

This encircles the Furnace—it is big—commodious—sensible—it holds several times as much water as the makeshift pan in the average Furnace—it is placed just at the proper position to catch the incoming air—to give it extra moisture before it gets to the heating surface, and thus the air supplied to the rooms is almost as humid as the outside atmosphere.

The "Good Cheer" Circle Waterpan Furnace saves Doctors' bills as well as coal bills.

For full particulars of the splendid Furnace write

## ARGUMENT IN SOOKE'S FAVOR

### REPORT MADE BY THE SUB-COMMITTEE

#### Contented Goldstream is Quite Impracticable Compared With Larger Body of Water

Following is the full text of the report of the special committee appointed at a recent meeting of the civic water board to gather further data as to the Sooke Lake proposition, which was read at Thursday evening's meeting of the board by John Weston, chairman. The other members of the special committee were ex-Ald. Anton Henderson and Ald. Fullerton:

Mr. Chairman.—The committee appointed to make further enquiries into Sooke proposition, as a water and power supply for the city of Victoria, would say, we should have had another week in which to have done this, as to get definite information with reference to the cost of the tunnel, which seem to be in the mind of some, and undertaking which is almost impossible; and according to the different engineers' reports there is a wide difference between them.

Your committee thought it wise to communicate with two engineers, of undoubted repute, which have had wide experience in putting through such tunnels, but have not had sufficient time to hear from them; so it is impossible for us to make a full report to-night. However, we have gone into the other difficulties that seem to have been in the minds of some of the committee at our last meeting, and also in the mind of the last engineer, who reported on Sooke Lake as a water and power supply; that is, that he and they were not sure if that quantity of water was available or not, whether the water shed was sufficiently large to give that amount. There did not appear to be any doubt in the minds of Adams and the government engineer, Mr. Ashcroft, with reference to this even without the tributaries to Sooke Lake.

Your committee has found out that the water shed of Sooke Lake alone is 20 miles or 12,000 acres; Leach has with its tributaries to Sooke Lake has a water shed of 36 sq. miles or 23,220 acres, which is more than three times the size of the water shed of Goldstream and its tributaries; and also Sooke Lake has more than double the storage capacity of Goldstream without even putting a dam around it.

Your committee in looking over the different engineers' reports and seeing the enormous difference between them a thing we almost think impossible if they had each gone thoroughly into it, as we know in any other business, men with knowledge of their business could not go so far apart unless they were bias towards that which they were figuring on. Now we have had considerable experience with Mr. Adams and have found in his estimates given to the city; that they were paltriness and that his estimates worked out very satisfactory. Your committee has gone into figures with regards to his estimate on the pipe line both by the long route and also the line from the tunnel, time would not suffice to do any more. We have secured an estimate of the cost of the pipe, the size Mr. Adams figured on, only of a better and stronger quality laid down in Victoria and are told it is an outside estimate, that is, it can be laid down cheaper. We have also got the cost of laying the pipe from Mr. T. Preece, who has had great experience on this particular work; and have added to his estimate \$1.00 per ft. for rock and 10c per ft. for gravel or ordinary digging, and we have allowed one-quarter for rock and three-quarters for gravel or ordinary digging, which we think is well within the mark, and we find Mr. Adams is well within his estimates, as according to our figures for pipe delivery and laying he has about \$75,000.00 to the good on the long route and \$20,000.00 on the other.

Now, Mr. Chairman and gentlemen, we think with the experience we have had with Mr. Adams, and in going over his figures on the pipe lines and finding that he has allowed a very good margin to work on, we should also have confidence in the balance of his figures, and in talking with some of the men that was under him here they declare they never met a man that was more correct in his figures; all these things are very much in his favor as to the correct amount it will cost to bring the Sooke Lake water to Victoria. Apart from that, your committee has come to the conclusion, after looking into the possibility of Sooke Lake and its tributaries, that the price quoted by Mr. Burwell, it would be cheaper compared to Goldstream, when we think we have three times the water-shed and over double the storage capacity without damming and to know that we can develop a greater amount of power, and can sell that power; which if we had Goldstream, according to present arrangement the city has with the B. C. Railway; they could not. All the city could count on from that source would be the present agreement between the B. C. Railway Co. and the Esquimalt Water Co., which is as we understand, about \$7,000.00 per annum and it is not likely the B. C. Electric Co. is going to give more when they have plenty of power elsewhere, and according to the present agreement between these two companies, the Esquimalt Co. cannot sell to anyone else, so that would be the position the city would be in if they were foolish enough to buy it; on the other hand we can develop power from Sooke Lake and we are not tied down to sell only to them, but have a standing offer from them so that our position on the two schemes are very much in favor of Sooke Lake from a power proposition. We will give you five reasons why this committee should recommend the Sooke Lake and tributaries as the best system for water and power to the city of Victoria.

First: We have more than three times the water-shed, and consequently we are safe in saying we can supply a good deal more than double the quantity of water and power.

Second: The water is at present despite some of the committee trying to

throw cold water on it by saying there is wrigglers in it. Despite this statement, we say at present the water as analyzed where it should have been it is better than Goldstream, after it comes through the several ditches, and when Sooke comes through the tunnel and have the pipe line put down at a reasonable depth, the quality of the water would be the very best on the Pacific Coast.

Third: The bulk of the money would be spent among the citizens, instead of going into the pockets of the shareholders of the Esquimalt Water Co.

Fourth: The expense of keeping up Goldstream Lakes and ditches, which is all made lakes, not natural, will cost as much in one year as it would cost to keep Sooke Lake 10 years, and there is always a danger no matter how well a dam is built to give way and according to the way these dams are constructed if the top one gave way the others could not stand the strain and we might find ourselves in a hole for want of water, say nothing about the danger that might be done. Nothing like this could happen to Sooke Lake. The only redeeming feature we see about Goldstream is its elevation they can empty the lakes and clean out the dams. In the face of all this we your committee cannot see how you could think of recommending the purchase of the Esquimalt Water Works Co. holdings at \$2,000,000 when you can buy double the quantity for less money and no danger of dams giving way.

In purchasing Goldstream we do not add to the city water supply. In expending a less sum than would be required to purchase Goldstream. On developing Sooke Lake we would add a new supply and place the city in the position of having ample water for practically all time to come.

Yours truly,  
(Signed) Committee.  
JOHN WESTON,  
W. F. FULLERTON,  
A. HENDERSON.

## ANNOUNCEMENT

TODAY, for the first time here, the new medicinal preparation—"ASAYA-NEURALL"—is offered for sale, and may be obtained from the undersigned.

"ASAYA-NEURALL" represents the latest conclusions of medical research in the effort to supply the nervous organization of the body with the elements required to restore normal nervous health in a form capable of being assimilated by the weakest digestive organs.

As is well known, every effort of the mind and every movement of a muscle uses up a part of the tissues of the nervous system, the waste products of which have been found by chemical examination of the excretions to consist largely of mineral phosphates.

In health, when the nervous forces are not over-exerted, certain foods, such as fish, eggs, milk, etc., supply sufficient of the phosphatic principle to restore this loss.

But when a person, young or old, through over-work, worry, intense excitement, grief, alcoholic or other excesses, over-exerts the nerve powers, accelerating the using up of nerve tissue and the consequent loss of the phosphatic principle past the power of recuperation by the ordinary channels of the food, the condition of nervous exhaustion results.

These facts have long been known, and physicians have for years endeavored to aid the system to regain its normal supply of the vital phosphatic element by the giving of phosphorus compounds of many kinds.

The preparation—"ASAYA-NEURALL"—may be described briefly, as the latest advance in the art of phosphatic medication, suitably prepared for general public use. In it phosphorus is supplied in practically the same form as it exists in the human system, thus enabling this nerve building element to be easily assimilated even by those whose digestive powers have been so weakened by disease as to make it impossible for them to retain and assimilate phosphorus preparations of any other kind. It is a safe, home remedy, immeasurably superior to any previous compound for similar purposes, and should be taken by persons suffering from

NERVOUS EXHAUSTION  
NERVOUS DEBILITY

NERVOUS PROSTRATION  
HYSTERIA INSOMNIA

For the nervous despondency frequently experienced by women when recovering from child-birth and for all conditions of nervous derangement resulting from the causes named above.

"ASAYA-NEURALL" checks the night sweats due to extreme nervous debility, and, under the physician's direction, will be found of great service as a reconstructive tonic in the treatment of wasting and debilitating diseases, especially Consumption, where it is of prime importance to maintain the nervous strength, and during the convalescence from acute diseases, such as Pneumonia, La Grippe, etc.

FREE TRIAL SAMPLE OFFERED.—BENEFICIAL EFFECTS ALMOST IMMEDIATELY EVIDENT.

The first effect of this preparation is the lifting of the feeling of depression and the awakening to a more lively interest in things about us. Ability to sleep returns, the digestive powers are roused, the appetite improves, and a general feeling of rejuvenation and renewal of energy is felt. The beneficial effects are evident almost at the first dose. Not due, however, to false stimulation, as in alcoholic preparations, but to real feeding of the under-nourished nerve tissues, while the time to stop taking this preparation is as evident as is the time to stop at meal time, that is, when the nerves have been fed until their normal condition returns and a buoyant feeling of nervous health replaces the depression previously experienced.

### SPECIAL NOTICE.

Any adult person may, within ten days from the date when this notice appears, obtain a liberal sized free sample bottle of "ASAYA-NEURALL," quite sufficient to definitely establish the value of this preparation in their case, by filling in the coupon below and presenting same to the undersigned.

"ASAYA-NEURALL" is regularly sold in large bottles at \$1.50 each. One bottle, taken three times a day according to directions, affords treatment for about forty days, all that is usually required for ordinary derangements of the nervous system.

"ASAYA-NEURALL" is prepared solely by the DAVIS & LAWRENCE CO., Manufacturing Chemists, of New York, Montreal and Shanghai, and may be obtained locally from

THOS. SHOTBOLT.

## Sunshine burns less than expected

### Two Tons in the bin and the winter over

OWNERS of Sunshine furnaces often make this mistake for the first winter. They order the same winter's coal supply as when using their old furnaces. When spring arrives they have about two tons in their bins. Of course, they are delighted. Wouldn't you like to own a furnace that burns less than expected?

Go to our agent in your locality and let him explain why the Sunshine furnace is such a "Famous" fuel-economist.

Let him tell you why the Nickel-plated steel dome

and radiator is a better conductor of heat than plain steel — why the straight semi-steel fire-pot radiates more heat than the common slanting gray iron fire-pot.

Let him show you how the four triangular grate bars release ashes without wasting fuel — how the automatic gas damper makes the Sunshine burn valuable gas fumes that escape up the chimney of ordinary furnaces.

Let him install a Sunshine furnace with a guarantee to heat your house to your entire satisfaction.

## AFGHANS TORTURED CONVERTED MOSLEM

Scenes in a Life of Adventure of  
an English Medical Mission-  
ary in East

In the list of the King's birthday honors appeared the name of Dr. Theodore Leighton Pennell of Bannu, who received the gold medal of the Order of the Kaiser-i-Hind.

It is eighteen years since he went out and established himself as a medical missionary of the Church of England among the wild tribesmen of the Afghan frontier. Since then he has passed a life of adventure and peril which would have earned fame for a regiment of soldiers of romance. From the Afghan side one day came a Mahometan priest, the Mullah Abdul Kharim, and in due time he espoused the faith expounded by the young Devonshire doctor.

Years went by, and somehow he escaped being murdered. He remained with the English missioner on the Bannu side of the border. Then something terrible happened.

How it happened was explained by Dr. Pennell to a representative of the London Daily Express a short time ago.

"Abdul Kharim had decided to go back into Afghanistan and preach the Christian faith to his own people. We of the mission advised him not to go, pointing out that it was courting death. 'But he went, and was arrested and taken to Kandahar, where he was put in prison to await the arrival of the Amir Habbibullah.'

"When the Amir arrived, Abdul was brought to his court and exhorted to return to the faith of Islam. 'When he refused to become a Mahometan he was manacled hand and foot with heavy chains, and a bit was set in his mouth like a beast of burden—the more effectually to humiliate him.'

"Thus tortured, he was handed over to two Afghan soldiers—men of normal Afghan cruelty—who were ordered to drive him thus on foot to Kabul. 'It was further ordered that every person who met him on the way was to give him a slap on the cheek and pull one hair out of his beard.'

"When he arrived in Kabul he was cast into prison; but was subsequently liberated and ordered to leave the country. No secret was given to him, however, and he had to find his way as best he could.

"In due time he came to a village where he was recognized, and dragged before the Mullah in the local mosque. 'There he was again ordered to become a Mahometan. When he refused his right arm was lopped off.'

"Now," said his captors, "will you become a Mahometan?" "I will not," said Abdul Kharim. "They jumped off his left arm. 'Now,' they asked again, 'will you become a Mahometan?' 'I will not,' replied Abdul Kharim. 'Then they cut his throat.'

As a rule, however, the doctor's converts only get shot; but many of them have died that way.

"I am the only white man in the mission up there," explained Dr. Pennell. Dr. Pennell has never carried arms of any kind in all his wanderings along those savage marches of the Indian Empire.

"It would not help me if I did," he said. "They could easily overwhelm me. Once, I remember—shortly before the Tirah war of 1897—I went to visit a man named Chikhal, the Chief of the Zalmukhuts, in the South Tirah. 'He had sent an escort to bring me to see some of his family who were sick.'

"Chikhal was a professional assassin who murdered his way to chieftainship of his clan. Its members were all skilled riflemen, all fugitives from justice, all armed to the teeth. 'About a thousand of them surrounded us as I met Chikhal and they did not all endeavor to dismember their dislike of the Christian in their midst. 'Don't mind those ruffians! Chikhal advised me courteously. 'If one of them attempts to molest you I'll shoot him on the spot!'

A courteous Assassin. Chikhal was very courteous indeed to

the missionary, and brought out his pet mullah, or priest, to argue with him, while he himself sat between the pair to see fair play. He also showed the doctor a little book of prayers that he wore around his neck as a charm. The guest noted that all the prayers except one were written in Pushtu. The exception was written in Pushtu—the language of the tribesmen.

"I wrote that prayer myself," exclaimed Chikhal, with proper pride. "It says: Oh Allah! Whenever I raise my rifle to my shoulder may it never miss its mark!"

"And Allah has been good to me," he added with pious fervor. "I have never missed my mark!"

Chikhal has about 400 murders to his name.

Dr. Pennell is now in England collecting the funds necessary for the extension of his hospitals, the purchase of X-ray apparatus, and the building of zenana wards for the women, who are attended to by his wife.

## CRIPPLED WITH LAME BACK This Result of Long Standing Kid- ney Disease Was Overcome by DR. CHASE'S KIDNEY-LIVER PILLS

This letter gives you some idea of the definite and certain results you obtain by using Dr. A. W. Chase's Kidney and Liver Pills for kidney disease.

This medicine is very prompt in action and very direct in effecting cure. You do not need to keep up the treatment long before you find most marked improvement.

Mrs. Richard Patterson, Haldimand, Gaspe Co., Quebec, writes: "I want to tell you that I was cured of kidney disease of long standing by the use of Dr. Chase's Kidney and Liver Pills. I used to suffer a great deal not knowing just what was the cause of the trouble and got so bad that I was almost crippled with lame, sore back."

"Before I had used two boxes of these pills I found my back better and less than three boxes made the cure complete. I have never had a sore back since and believe the cure to be lasting."

Backache, headache, bodily pains, scanty, painful urination, deposits in urine after standing, sickle appetite, indigestion and irregularity of the bowels are among the symptoms which warn you of serious trouble from kidney disease.

You can be practically certain that Dr. Chase's Kidney and Liver Pills will help you and help you quickly. Make the test for yourself to-day. One pill a dose, 25 cents a box, all dealers; or Edmondson, Bates & Co., Toronto. Write for free copy of Dr. Chase's Recipes.

Two miners, who were entombed by a fall of rock in the Prinzregent mine, near Bochum, were released alive after being buried for 123 hours. A hundred rescuers worked unceasingly night and day hewing away the rock to free the prisoners.

## Water Notice

Notice is hereby given that an application will be made under Part V. of the "Water Act, 1909," to obtain a license in the Victoria Division of Victoria Water District.

(a) The name of Company in full—The Terminal Gravel Company, Limited. The head office—268 Hastings street, Vancouver, B. C. The capital, how divided, showing amount paid up—Capital, \$50,000, divided into 2,500 shares of \$20 each; \$10,000 paid up. (If for mining purposes) Free Miner's Certificate No. Not for mining purposes.

(b) The name of the lake, stream or source of water, the description of the lake on the southeast slope of Mount Wood, Malahat District.

(c) The point of diversion—On the north side of said lake.

(d) The quantity of water applied for (in cubic feet per second)—Four.

(e) The character of the proposed works—Dam at south side of said lake and ditch on north side.

(f) The premises on which the water is to be used (describe same)—Gravel pit on west of Spanish Inlet, south of Indian Reserve.

(g) The purposes for which the water is to be used—Washing gravel and industrial purposes generally.

(h) If for irrigation describe the land in-

### SOCIAL AND PERSONAL

S. Roedding, of Ladysmith, is visiting Victoria.

Mr. and Mrs. Judd are visiting at Aston House.

Oscar Pierson is visiting Ladysmith and Nanaimo.

Mrs. Fletcher is making a short visit with Vancouver friends.

Miss Payche Scott is visiting Mrs. M. J. Morrison in Vancouver.

Mr. and Mrs. E. Wright, of Nanaimo, are visiting relatives in the city.

Mrs. H. St. John, of Vancouver, is visiting Mrs. Annford, Oak Bay.

O. S. Crockett, M. P., York, N. B., is expected to visit the city to-day.

Mrs. L. W. Patmore, Prince Rupert, is the guest of Victoria friends.

Mrs. Boulbee, Vancouver, is the guest of her mother, Mrs. Nicholles.

The Misses Forrest, Ladysmith, are paying the Capital a business visit.

Miss Letitia Matthews is visiting her cousin, Miss Adela Bennet, Nanaimo.

Mrs. W. H. Whiteley is visiting friends at Mount Pleasant, Vancouver.

Mr. and Mrs. H. Ermer, 1495 Dallas road, are spending the week-end in Seattle.

W. Garland Foster, manager of the Nelson Daily News, is paying a visit to Victoria.

Mrs. McIntyre and Mrs. Maurice Bonduax, of Prince Rupert, are visitors to Victoria.

Mr. Charles Harrison, of Masset, is making a month's stay in the city visiting friends.

Mrs. D. Sabiston has returned to her home in Nanaimo after visiting her parents here.

Mrs. E. Fielden Nivn is the guest of her sister-in-law, Mrs. F. C. Nivn, 1319 Belcher street.

H. W. Just, C. B., C. M. G., and J. McDonald Mowat returned to the mainland yesterday.

Miss Ella Robertson, of Vancouver, is a guest of Miss Jean Roberts at Shawinigan Lake.

Mrs. Lafortune and child, of Vancouver, are visiting Miss Dobb in camp at Kanaka ranch.

Chas. H. Treat, secretary of the Midway View Oil Company, of Los Angeles, is visiting the city on his way to the California oil fields.

The many friends of Miss Nora L. Wilson will learn with pleasure that she is recovering after an operation at St. Joseph's hospital last week.

A. C. Robinson, ex-premier of New Brunswick and at present leader of the opposition in that province, is spending a week at the coast, visiting friends in Vancouver and Victoria.

Mrs. R. Erskine has returned from a long visit to the Okanagan, accompanied by her daughter, Mrs. J. Fred Simmons, Vernon, who will spend a holiday with her here.

Miss Farquhar, Halifax, N. S., who has been visiting the Misses Blake, more, "Wolfund," Rockland avenue, left to-day for Sidney, where she will make a short stay before returning home.

que, giving all the charm of a wrap without its warmth, adding charming color nuances to costumes, softly veiling lovely tones in frocks, echoing harmonizing tones in hats.

Of the long and flowing coats in chiffon, lace and net mention has been made before. Many of these are very expensive, elaborate with embroidery and lace, turned out by famous makers, but there are, too, graceful unlined cloaks and shawl-like wraps of chiffon, charming in line, bordered by narrow bands of marabout and sold for very reasonable prices—\$25 or \$30.

Of the smaller wraps and scarfs there is a seemingly endless variety. One of the latest Parisian fads has been the wide straight scarf of black satin lined with white satin, caught toward the ends by handsome ornaments or jet or passementerie and worn closely about the throat like the fur scarf of winter, with one end falling backward over the shoulder and one forward.

The same shape and general idea is developed in other colorings, in black lined with color, in natural tone ponce lined with cachemire silk, and trimmed with black ornaments, etc.; but it is the black and white scarf that has been taken up enthusiastically in Paris.

The straight scarf of chiffon or other gauzy material has lost caste to a considerable extent, but innumerable shawl-like wraps in similar materials have been brought forward to take its place. Many of these are of chiffon bordered narrowly in fur. Others have straight falling stole fronts combined with short draped backs. A hand-

some model has a pointed back formed of large square of chiffon elaborately embroidered in self color. To this flat square two long scarf ends of chiffon were shirred just behind the shoulders, and drawn forward over the shoulders to be loosely knotted or fall straight in front, their ends being weighted with embroidery.

Or again you may have a wrap of embroidered net or chiffon, short over the arms and running to a long deep point in front and back, with heavy tassels finishing the points. One of these wraps in soft blue net embroidered in silver was worn over a frock of pale shimmering gray and was altogether delightful.

Black chiffon embroidered in gold was the material of a lovely little wrap which fell over the arms and in a point down the back, while around the neck and falling long at each side of the front was a wide soft stole of black satin gathered in at the ends and finished by big gold tassels. The chiffon shawl or cape was joined to this stole around the neck and down the bust line on each side of the front, but from this point it fell free.

Changeable or shaded chiffon is used for some of the loveliest draped wraps in light tones, and exquisite color effects are obtained in this way.

The tulle ruche is little worn, but you see wide soft satin shirred point of tulle and used in scarf fashion as a substitute for the close neck ruche.

THE POPULAR WOMAN

It isn't only in other people's houses that the popular woman shines. She is splendid wife, mother and house-keeper.

Her home is seldom magnificent, and never ostentatious. But everything is in perfect taste. There is nothing that jars you. Everything is conspicuously cozy, cheerful, comfy. You feel at home there. The whole place seems to breathe the spirit of content.

Her children adore their mother, and she is always ready for a romp with them. Her husband is obviously well looked after, and is always beamingly proud of his wife.

She answers letters promptly, and keeps appointments punctually. She seldom makes promises, and never breaks them.

She is a good organizer, and if she undertakes to arrange a bazaar, a concert, or a ball, she can be depended on to make it a success.

She is moderate in her views, and still more moderate in expressing them. She does not lay down the law. She has a ballast of good common sense, and knows just how to keep on good terms with the worst-tempered people.

She is chiefly popular because she does not seek popularity. She is not cold to appreciation—she would not be a woman—if she were—but she does not care to be blindly admired. She prefers to be understood.

One thing she doesn't do—she doesn't gush over you whenever you meet her. This sort of coy sugarness is usually too good to be true.

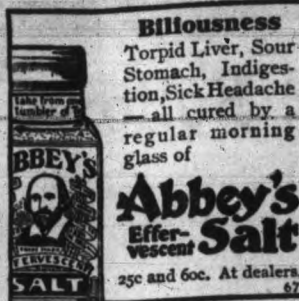

She has wonderful tact. She possesses to the full the happy knack of suiting herself to circumstances. She is all things to all people.

She knows something of everything, and is genuinely interested in anything that may be talked about. She can enter heartily into everything that goes on.

She never bores you with her own ills and troubles, though she undoubtedly has them, and she never appears to be bored with your long recital of ailments and worries.

She doesn't talk much, but she is a splendid listener, and knows exactly how to lead others on to talk and make the best of themselves.

And she has the gift of filling up gaps in the flow of conversation and turning the talk from strained and awkward subjects to pleasant ones. Her conversation is bright and cheer-

que, giving all the charm of a wrap without its warmth, adding charming color nuances to costumes, softly veiling lovely tones in frocks, echoing harmonizing tones in hats.

She doesn't talk much, but she is a splendid listener, and knows exactly how to lead others on to talk and make the best of themselves.

And she has the gift of filling up gaps in the flow of conversation and turning the talk from strained and awkward subjects to pleasant ones. Her conversation is bright and cheer-

ful, but it is never frivolous nor flip-pant.

She is no mere echo. You usually find that she has started a train of thought in your mind that never occurred to you before.

She is the chum of boys and girls and the adviser and confidante of men and women.

There is nothing stilted or formal about the really likable woman. She has no company manners. She is always natural and friendly. Her very handshake spells sincerity.

She makes you feel at home with her as soon as you have been introduced. She sings a little, plays a little, but isn't at all a brilliant performer at anything. But her little bit of talent is always at your disposal if it will help to make things "go."

As a hostess she is marvellous. She seems to know exactly what you want before you realize that you want it. She always rises to the occasion, and says just the right thing at the right time.

The time when half a dozen professions were all that were open to women is now left in the dim past and is almost as unthinkable as a stage coach transit.

Women daily are entering new fields of endeavor and making good at new lines of work.

It is good for other women in conventional positions to hear about their more original sisters, both as a matter of human interest and because of the germ of suggestion that may await them there.

For that reason I devote this column occasionally to telling of some of the "other things" that women are doing.

If there are any women among my readers who have unusual occupations I wish that they would write and tell me about them so that I might pass on the story.

Be sure to tell the advantages and disadvantages of your occupation, how you started in it, what education is necessary and what the compensation is apt to be.

One of the most interesting methods of earning a livelihood—with which I ever happened to come into personal contact—was a bird boarding house.

The keeper of this establishment made a fairly comfortable living by boarding birds, whose owners were travelling, and by treating sick birds.

She had no especially built aviary, but simply devoted three large sunny rooms in her home to her birds. Canaries and parrots were the chief of her guests, but she also had many less common birds such as Japanese nightingales, thrushes and lullabees.

For a well canary she charged twenty-five cents a week; for a parrot, fifty cents. Sick birds cost according to the care they required.

Although she is very fond of her work, she says it is by no means as easy as it sounds.

There is much responsibility, as many of the birds are very valuable. One beautifully plumed parrot, which she was treating was valued at \$500. One hundred dollars is a very common price to pay for a good bird.

Then the diet of the sick birds, most of which are being treated for indigestion, is a great care. Of the four-

teen parrots that she had when I visited her, no two were being fed alike.

But then, of course, there are responsibilities and difficulties in all kinds of business and the lady of the birds thinks that for anyone who has a home where she can keep the birds so that she need not reckon rent, and who loves and understands birds, there is a comfortable living in the business.

In talking with this woman about the diet of her guests I stumbled upon a business as much more unique than hers as hers is than school teaching or any ordinary profession.

My lady of the birds has to have a certain kind of meal worms for some of the soft billed birds.

"Where do you get them?" I asked.

"From a New York dealer," she said.

"but I used to get them from a woman a few miles from here who raised them for a living."

Don't you think that caps the climax?

These worms are merely ordinary meal worms—the kind that come in your meat crock if you aren't careful. Certain birds have to have them. The raising is done by putting meal and two or three other things into a dark crock and letting the worms breed. When ready for the market they are

## THERE IS NOW A NEW NORTHWEST RESOURCES OF CANADA'S GREAT HINTERLAND

Far to the North of the Saskatchewan Stretches a Splendid and a Fruitful Country

"Young Canada" standing on the northern margin of the settled prairies—Prince Albert, Battleford, Edmonton at his feet—looking out over the "hinterland," writes R. E. Young, chief geographer of the department of the interior, in the Toronto Globe.

What thoughts may be in the mind of that typical figure as to what its future may contain for him and his country?

Let us glance at a page or two in the history of the prairie west behind him as he stands in contemplation.

In the Montreal Transcript of a date in the late 'fifties—just over fifty years ago—when the question as to the extinction of the sovereign rights claimed by the Hudson's Bay Company in nearly all of our western country was occupying the minds of people in the Canada of that day, one reads that the climate of the northwest is "altogether unfavorable to the growth of grain" and that the summer is so short as to make it difficult to "mature even a small potato or a cabbage."

In juxtaposition with the above one is tempted, though the changes have been rung on the figures so often by proud westerners, to place the results according to latest available figures of the 1909 grain crop for Manitoba, Saskatchewan and Alberta, raised on less than one-twelfth of the surveyed land:

	Bushels
Wheat .....	144,457,606
Oats .....	181,267,717
Barley .....	27,559,966
Flax .....	704,267

Grand total .....

Hon. Clifford Sifton, chairman of the new conservation commission, was surely fully warranted when, in addressing the opening meeting in Ottawa in January last, he spoke of the agricultural production of western Canada as "the pride and the hope of Canada."

When the Hudson's Bay Company's rights were extinguished by the deed of surrender in 1869 the terms of the agreement included the payment of \$200,000 to the company, and the grant of one-twentieth of the lands as surveyed.

It was in connection with the negotiations leading up to this surrender and to define the area from which the company's one-twentieth was to be taken that the term "The Fertile Belt" appeared to have been first used as applied to the portion of our prairie west which lies south of the Saskatchewan river, and it has always seemed to the writer that the use of the term does a possible injustice to that other northwest beyond, so far as it may appear to be implied that the Saskatchewan river bounds the fertile belt of fertility.

These rich and easily accessible lands in the fertile belt are going fast from the Crown domain into the possession of settlers in this year of grace 1910, as the following figures will show:

Homesteads, pre-emptions, purchased homesteads and South African script lands—total area entered for in January, February, March and April, 4, 214,330 acres—considerably over three times the total area of Prince Edward Island, with its four members and four senators in the Dominion parliament, and about one-fifth of the main settled area in older Ontario, with its 80 odd members of parliament and 24 senators.

Surely the Canadian of the east will not deny to these new citizens in the Canadian west, representing so many other lands, equally virility and force with that of the pioneers of his own part of Canada, nor can he truthfully say that the lands they occupy are less promising in potential wealth.

What kind of a representation will this new element bring crafted into the body politic: seed down to Ottawa when enfranchised in three or four years may be a subject worthy of considerable thought in the older provinces, but Young Canada in the illustration above, as he contemplates a portion of the family estate yet to be developed, may well be wondering to what extent homes are going to be found there for the hundreds of thousands of people in other parts of the world whose eyes will continue to turn Canadianwards in this fortunate period of our history and what kind of development additional to the tilling of the soil is likely to take place there.

It is in an endeavor to answer these latter questions that the department of the interior invites the reader to possess himself of a set of its recent publications on this north country, including the special edition of the senate reports of 1887-1888, under the title "The Great Mackenzie Basin," and of the senate report of 1907, under the title "The New Northwest," the report of exploration by Mr. Crean of the department in the years 1908-1909, with map, now just ready for issue, and the new northern Alberta map.

Before we leave our Young Canadian looking out into the future wondering what it may hold for his country, may we not cast our minds back a little to consider the viewpoint of a Canadian of, say, 25 to 30 years ago who looked over the Dominion as of that day. Enthusiasts there were in plenty, perhaps, in the country, would not have cheerfully assumed the enormous burdens for the construction of the Canadian Pacific railway; but how much faith was then required to predict that Canada's time would surely come! No Yukon. No Sudbury. No Crow's Nest coal field. Cobalt still to remain undiscovered for another 20 years. No great future for the Northwest except chiefly in the minds of the optimistic westerners of that day. No value set on our great wealth of water-powers.

With the experience of this last quarter of a century to look back upon, and a great unprospected area to

# AN EMPIRE IN THE BUILDING

An Empire is being built in the West greater than the most enthusiastic Canadian ever dreamed of. Unequalled railroad facilities are being supplied. Towns and cities are showing magic growth. Population is increasing. Agricultural resources are being wonderfully developed. Hon. Sydney Fisher says that this Great West will in a decade be producing a billion bushels of wheat annually. This Great Western Empire will have a population of thirty millions in a few years.

## THE GRAND TRUNK PACIFIC

The last and greatest of the Transcontinental railways—extending from Halifax, N. S., to Prince Rupert, B. C.—is opening up and developing a new and wonderfully rich territory. The Grand Trunk Pacific in its course through the three Prairie Provinces draws on a larger area of fine wheat-producing land than the entire wheat belt of the United States. The Grand Trunk Pacific is assisting in an energetic and vigorous manner in the building of this Great Empire to the North and to the West. This is truly the Land of Opportunity. No portion of any country on the globe to-day shows such rapid development as the Grand Trunk Pacific territory.

## THE GROWTH OF WESTERN CANADA MEANS THE GROWTH OF

# Watrous

All that is best in the New West is represented by the growth of Watrous. As the Grand Trunk Pacific takes its place as one of the most important factors in the Canadian West, Watrous will thrive and grow with it, increasing in population and Real Estate value.

**WATROUS** is the geographical centre of the Great and Growing Canadian West.  
**WATROUS** is the centre of the finest farming section in all Saskatchewan.  
**WATROUS** is the most attractive town of this new Golden Empire.  
**WATROUS** is the central and principal divisional point of the Grand Trunk Pacific Railway.  
**WATROUS** is the natural point from which the Hudson Bay Railroad will be built to Nelson or Fort Churchill.  
**WATROUS** is in direct line between Regina and Prince Albert and will be on line of railway, when completed, between these two points.  
**WATROUS** is the terminus of the branch line of the Grand Trunk Pacific to Prince Albert.  
**WATROUS** being midway between Winnipeg and Edmonton, where the present shops of the Grand Trunk Pacific are located, it is expected that the central shops of the road will be located at Watrous.  
**WATROUS** being the Central Divisional point, it is from here that the different branch lines to other important cities will radiate.  
**WATROUS** is located near the banks of Little Manitou Lake, the most wonderful body of medicinal mineral water on the American continent.  
**WATROUS** will soon have three large sanatoriums to take care of the thousands of health-seekers who will visit Little Manitou Lake.  
**WATROUS** will be the great national health and pleasure resort of not only Canada, but of the American continent.  
**WATROUS** is rapidly increasing in population, wealth and influence.  
**WATROUS** lots are rapidly increasing in price. \$6,000 was recently offered for a lot in Watrous and was refused, this lot having originally sold for \$250.

**WATROUS**—favored bountifully by Nature and the Grand Trunk Pacific—is destined to become one of the most important inland cities of Western Canada.  
**WATROUS** is midway between Winnipeg and Edmonton, 407 miles from Winnipeg, 383 miles from Edmonton.  
**WATROUS** will be to the Grand Trunk Pacific what Moose Jaw is to the Canadian Pacific,—both are Central Divisional points. Moose Jaw, on account of its greater age, has 15,000 population. Watrous will be as large in a few years.  
**WATROUS** has in Little Manitou Lake—"the Carlsbad of Canada"—an unequalled health resort. The wonderful medicinal water of this lake has such high specific gravity that it is almost impossible to sink in it, the water being so buoyant that a human being floats on its surface like a fishing cork.  
**WATROUS** needs new industries, new enterprises, new citizens, and especially carpenters and skilled mechanics of all kinds.  
**WATROUS** needs more banking facilities to care for its constantly increasing business; more laundries, more bakeries, to feed and care for its growing population; more elevators, and a large flouring mill.  
**WATROUS** needs more boat houses at Little Manitou Lake, an amusement pavilion; more motor-boats; scores of row-boats and canoes are needed for pleasure seekers.  
**WATROUS** needs several hundred more summer houses built at Little Manitou Lake, all of which can readily be rented at good prices.  
**WATROUS** property should, in three years' time, command even higher prices than at other well known health resorts, because there is no other similar resort on the American continent. There is but one Little Manitou Lake, therefore there can be but one Watrous.

## Buy Lots in Watrous--You Can't Make a Mistake

The more lots you buy in Watrous, the more money you will make. It is impossible to purchase lots in a live and growing young city of Western Canada and not make splendid and certain profits.

Lots in Moose Jaw that sold a few years ago at \$100 each are to-day worth from \$1,000 to \$2,000. Lethbridge a few years ago was a small frontier town. Lots in Lethbridge now command fancy prices. \$10,000 to \$12,000 is sometimes paid for a single lot.

Lots which sold in Saskatchewan ten years ago for \$100 are to-day worth ten to fifty times that amount.

You could have purchased lots in Edmonton ten years ago for \$100 each, which are to-day worth \$1,000 to \$10,000.

Those who purchased lots in Port Arthur ten years ago are now the possessors of property worth 1,000 per cent. more than the price at which it was originally purchased—an average increase in value of 100 per cent. each year.

In Port William the same rapid advance in values has taken place. Lots which sold for \$100 to \$200 each,

even five years ago, have since sold for \$1,000 to \$2,000. It is almost impossible to chronicle the rapid advance of property in Calgary, Regina, Winnipeg, Vancouver and other cities of Western Canada.

If you failed to get in on the big money that was made in other Grand Trunk Pacific cities such as Port Arthur, Fort William, Saskatoon, Prince Albert, Edmonton, Prince Rupert, or many other cities which might be named, here is your chance now to get in right on Watrous. The same spirit of co-operation which has been extended by the Grand Trunk Pacific to these other cities which have made good will be extended to Watrous.

Buy lots in Watrous now while they are selling at the ground floor price, and hold them, and you are certain to make money. The more lots you buy in Watrous the more money you will make. Buy half a dozen or more lots, and ride with the wave of advancing values. \$10 for every dollar you invest is common in live towns of Western Canada.

Think what it means for the population of Canada

to increase from six million to forty million, and 80 per cent. of this growth will be in the West. What does this mean to you? Nothing unless you are identified with Western Canada's growth. Western Canada's valuation in real property will show a corresponding increase, an increase which will be divided among present and future holders of land in proportion to land and opportunity unless you are part of it. You doubtless have among your friends and acquaintances those who have shown their faith in Canada and the Canadian cities, and have become rich because they invested when these cities were young.

Buy lots and prosper with Canada. Buy in Watrous, and as Watrous grows the money you put into it will grow just as surely and certainly. Invest your money where the greatest activity is taking place. This centre is undoubtedly in Western Canada, and Watrous is the pivotal centre. You are taking no chance when you buy lots in Watrous at present prices. The future of Watrous is assured, and if you

buy now you should make 100 per cent. to 1,000 per cent. on your investment during the next five years. To insure securing choice lots, we advise that you order direct from this advertisement, using the coupon in lower right-hand corner, making remittance payable to Land Commissioner, Grand Trunk Pacific Railway Company, Winnipeg, Man. If, however, you desire further information before purchasing, then use the coupon in lower left-hand corner, mailing direct to the selling agents, International Securities Co., 649 Somerset Building, Winnipeg, Man., and you will be furnished with full particulars, maps, plans, etc. But we again repeat, our advice is to make your purchase at once.

If the selection of lots made for you by our representative is not satisfactory, all you need do is to notify us to that effect, and the money which you have paid to the Grand Trunk Pacific will be refunded to you.

Safeguard your interest by using the purchase coupon and mailing remittance to-day.

In case you desire further particulars, maps, etc., before selecting lots, use coupon below.

**INFORMATION COUPON.**

### THE KING'S COOK.

After serving over twenty years with his royal master, J. Menager, who was maître chef to King Edward, is about to retire.

Mr. Menager, than whom few servants of King Edward's household have worked more zealously, says Food and Cookery was presented with a beautiful diamond pin by the Kaiser on the occasion of his visit for the late King's funeral. During that time, when all hands were taxed to the utmost, Mr. Menager personally superintended the work of the kitchen at Buckingham Palace.

Henri Cedard is to be maître chef to King George V., and Mr. Stempfer, who for some years acted as deputy to Mr. Menager, has been appointed chef to Queen Alexandra.

SYNOPSIS OF CANADIAN NORTHWEST LAND REGULATIONS.

Any person who is the sole head of a family, or any male over 18 years of age, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Entry by proxy may be made at any agency, districts a homesteader, by father, mother, son, daughter, brother or sister of intending homesteader.

Duties.—Six acres of land in each section of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 20 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price \$30.00 in each of six years from date of homestead entry (including the time required to earn homestead status) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may take a purchased homestead in certain districts. Price \$30.00 per acre. Duties.—Must reside six months in each of three years, cultivate fifty acres and erect a house worth \$300.00.

COAL.—Coal mining rights may be leased for a period of twenty-one years, renewable, at an annual rental of \$1.00 per acre; not more than 2,500 acres shall be leased to any individual or company. A royalty at the rate of five cents per ton shall be collected on the merchantable coal mined.

W. W. CORY, Deputy of the Minister of the Interior.

N. B.—Unauthorized publication of this advertisement will not be paid for.

## FRUIT GROWERS

## MORE SYSTEMATIC

Irrigation Expert Says They Are Now Adopting Only Standard Varieties

Kamloops, Aug. 4.—Encouraging reports of the fruit and vegetable yields of the Notch Hill, Salmon Arm and Armstrong districts are given by V. D. Curry, a local irrigation expert, who has just returned to the city after a tour through these sections. Mr. Curry says that while on the whole there may be reason to think that the total crop will not be larger in quantity than usual, on account of the backward spring and hot summer, its quality leaves little to be desired. He also finds that the ranchers are planting more systematically than in former years and are adopting only standard varieties, thus doing away with so much experimenting with freak fruits. This will mean a much more uniform crop in the future.

The crops he saw at Notch Hill he said were fair. The hay, grain and fruit showed somewhat the lack of moisture in the dry belt; the fruit there was not being irrigated; in the bottom lands the hay was very good.

At Salmon Arm the fruit was first class, the apples being exceptional. Newer varieties here, such as Jonathan, Wagner and McIntosh Red, were showing up nicely, while all other apple trees were also heavily laden. The hay crop, while hardly up to that of the higher land, was rather poor. Mr. Curry noticed great development in land clearing in the Salmon Arm district. The orchards showed no signs of the hard winter two years ago from which the other sections suffered so severely.

The grain crops of Enderby, in the Okanagan, were fine on the bottom lands. At Armstrong on the lower lands, the potatoes and other roots were magnificent.

On the higher elevations they were not quite so good but here the fruit trees excelled. The apples were especially fine, and it was Mr. Curry's opinion that there would be a very heavy shipment of apples from Armstrong this year. Early potatoes were ripe and many carloads were being sent out at good prices.

Throughout the whole district which he visited he found evidence to show that settlers were coming in rapidly and buying lands at very fair values. General interest was manifested and as soon as purchasers acquired their property they commenced clearing operations. With modern ideas in orchard growing he thought they should be able to supply a very heavy demand in the future.

## NANAIMO CUSTOMS RETURNS.

Nanaimo, Aug. 4.—Customs returns for Nanaimo and district for the month of July totalled \$7,339.35, divided among the several ports as follows: Nanaimo, \$5,576.15; Alberni, \$23.25; Chemainus, \$178.12; Courtenay, \$47.34; Cumberland, \$50.88; Ladysmith, \$656.67; Port Alberni, \$96.38; Union Bay, \$439.67.

During the past month there were recorded with government Agent Thompson twenty-four births, three marriages and eighteen deaths.

During the month twenty mineral claims were recorded.

The following returns for the city for the past month were as follows: Malt, \$1,490.52; Hops, \$278.17; tobacco, \$244.48; cigars, \$79.03; and other liquors, \$229.62; total, \$2,532.05.

Dr. Chase's Ointment is a certain and guaranteed cure for hemorrhoids, piles, itching, bleeding and protruding piles. See testimonials in the press and ask your neighbors about it. You can use it and get your money back if not satisfied. 6c. at all dealers of Keweenaw, Bates & Co., Toronto.

DR. CHASE'S OINTMENT.

## LICENSE COMMISSION

## RENEWS PROTEST

Object to Action of Vancouver Council in Establishing Hours for Licensed Premises

Vancouver, Aug. 4.—In view of the proposed action of the council in shortening the hours of business of premises licensed to sell liquor the license commission formally renewed its protest against the aldermen taking action on the question without first consulting the views of the commissioners and making the opinions of the latter to govern.

Commissioner Findlay said the license commission might as well go out of business if the council was going to depart from its usual duties and interfere with the business which was supposed to be conducted by the

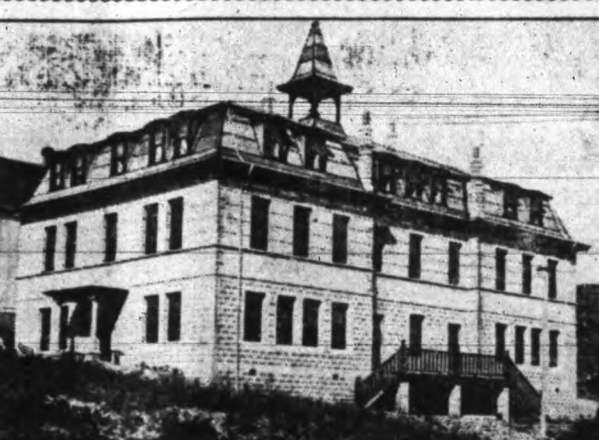

## PROPOSED PUBLIC

## LIBRARY AT FERNIE

Committee Appointed to Investigate Subject—Tax on Transient Real Estate Agents

Fernie, Aug. 4.—The city council is considering the proposition of securing the tract of land near the new park for the purpose of making a small lake at that entrance of the town. It is not likely that anything will be done in this direction immediately, but Mayor Herchmer is determined to have no stone unturned to make the city one of the most attractive in the interior of the province in the near future.

A by-law taxing transient real estate agents \$200 per annum has been passed by the council and these outsiders will now have to contribute that

## NEW CONVENT AT LADYSMITH.

(Special Correspondence.)

Ladysmith, Aug. 4.—The new Roman Catholic convent is now complete and pupils as well as teachers, welcome the change from their temporary quarters to the cool and spacious rooms of the new building, which is at present a refuge for the orphans from the Naino convent, lately destroyed by fire.

It contains nearly half a hundred rooms and corridors, among these being music room, sewing room, laundry, dining room, kitchen, storerooms, class rooms, dormitories, dance hall, parlor and chapel, with vestry, besides numerous large corridors and lavatories with the best and most up-to-date fittings.

The entire building is of cement blocks and the interior woodwork is ash-grained fir, richly stained. The doors and windows were donated by

members of the church, as was also the altar for the chapel.

The assembly room covers about one-half of the top floor and is fitted with a stage and ante rooms for the convenience of those taking part in amateur theatricals or concerts. Electric light has been installed throughout.

The contractor and builder was J. Avery of Victoria. That he has done an excellent piece of work is the opinion of all who have had opportunity of inspecting the building. The style of architecture is plain and severe as befits the structure, but there is an air of solidity about it which commends itself to those who appreciate the worthy purpose for which it has been erected, and it is a decided addition to the numerous large buildings which are going up in the rapidly growing town of Ladysmith.

commission. The board was thoroughly representative and was responsible directly to the people. Its members received nothing for their services, not even free tram transportation. It was supposed to be acquainted intimately with the business controlled and the council should certainly respect its views.

Commissioner Edgett said the present board had done much to raise the standard of the licensed premises of the city and the attempt of the council to interfere with the regulations governing the business was utterly repulsive. On the council were four aldermen who represented wards within which there was not a licensed place.

Mayor Taylor said that he was in harmony with the views expressed above and considered that the license commission's views as to the hours of closing should be accepted by the council.

The happiness of our lives depends much less on the spirit in which we do it, than on the spirit in which we do it.

Prince Leopold.

## BURGARS BUSY.

Vancouver, Aug. 4.—The burglar has evidently not left the city altogether yet. A few days ago A. McN. Shaw of Toronto, a guest at Glenora Lodge, complained that he had been robbed of a sum of money, between \$100 and \$150, his gold watch and pocketbook, the latter containing valuable papers and his and his wife's return tickets to the east. Mrs. Shaw's rings and jewelry were also taken. One of the rings was a valuable diamond.

Robbers also entered a house on Howe street during the absence of the family. They ransacked the house and carried away \$70 in cash and a considerable amount in jewelry.

## Uncle Walt The Poet Philosopher

There's many a man and many a dame defeated in this worldly game, who might regain the upward track (for has-beens now and then come back); if we would seek them where they stand,

THE WORLD and offer them a helping hand. But when we go to help the lost, the beaten and the tempest-toss'd, the milk of kindness turns to curds; we merely hand out

OF WORDS. If words were worth but one cent each! If we would feel instead of preach! A lot of hearts bowed down with woe would feel a new and cheering glow. How well we like to wag our jaws to help along some worthy cause, and how we hate to bend our backs and get right down to old brass tacks! "Oh, for a thousand tongues," we sigh, "to lecture poor folks passing by; to show them where they've made mistakes, and forty kinds of dizzy breaks; to hand them precepts by the peck, and fill them up, clear to the neck, with admonition and advice, and solemn warnings, off the ice!" A thousand tongues we each might use, to air our philanthropic views, but when it came to helpful deed, one finger would be all we'd need.

Also a large house and three acres of land, close to Gorge waters, inside city limits, at half its value.

## NELSON TRADE

## LICENSE BY-LAW

Passed by the City Council—Live-ly Tilt Between Mayor and Alderman

Nelson, Aug. 3.—The by-law to amend the trade license by-law was considered at the last meeting of the city council sitting as a committee of the whole. After bringing in various amendments to the by-law the committee reported progress and the mayor took the chair and Ald. McDonald moved, seconded by Ald. Rutherford, that the by-law be now read a third time. Carried.

Mayor Selous then addressed the council saying he did not know how the many changes made in the by-law would affect its validity. They had added new clauses and made great changes and it was not the same by-law as received the first and second readings. He thought they were doing a great injustice to the men who were running the saloons; there were no complaints about their conduct and some of the hotels were probably worse than the saloons complained of. The closing of the saloons would lead if anything to more drinking as the more people you get into one place the more drinking in the form of treating there would be, and you are taking away the means of livelihood and confiscating the property of those six men and incurring liability which may involve the city in lawsuits and heavy costs.

Ald. McDonald said he thought the cause of temperance had been favored by the by-law passed and did not think the city was being involved in any liability. The city should be made to run properly and if the city has not a chief of police who could control them it should get one that can. He did not object to the mayor taking the stand he did as he had been elected by those people and had to stand by them.

Mayor Selous asked if any other alderman would have pleasure in insulting the mayor. Ald. McDonald should be the last man to talk in the manner he had in supporting this by-law, as he (the mayor) had it on undoubted authority that Ald. McDonald had sold liquor himself and that this was Ald. McDonald's own statement.

Ald. McDonald denied the imputation in strong language. "I never sold a drink in my life," he said.

The Mayor: I am assured that it is Ald. McDonald's own statement.

Ald. McDonald: I will bet you \$5,000 that you cannot prove it; I am a 30 years' teetotaler.

The Mayor: I don't bet, and should have thought it was against your principles.

Ald. McDonald: I don't bet, but will give \$5,000 to the hospital if you can prove what you say.

Ald. Rutherford said he felt they were doing good to put the saloons out of business.

The third reading was carried.

## NARROW ESCAPE FROM DEATH.

Nelson, Aug. 4.—But for the gallant exertions of Ira Lindsay and for the subsequent skillful attention of David Hartin, son of Dr. Hartin, Henry Short would have met death by drowning at the city park.

Mr. Short was bathing in the lake near the park, when he was suddenly seized with cramps and sank. Ira Lindsay, who with D. Hartin and a couple of passengers was just leaving the park wharf in a launch, noticed his struggles and hastened to the scene. He reached the drowning man just as he was sinking for the third time, and immediately dived to his rescue. After a long struggle, in which both sank several times, Mr. Lindsay succeeded in dragging the man near the shore, and with the assistance of V. Epperson, who came to his help, he succeeded in bringing him to land. Mr. Lindsay was then thoroughly exhausted and Mr. Short was unconscious.

David Hartin, who had in the meantime brought the launch to shore, skillfully applied artificial respiration and at last succeeded in restoring Mr. Short to consciousness, and neither the rescuer nor rescued are much the worse for their adventure.

This is the second time that Mr. Lindsay has saved life from drowning. Three years ago he rescued a girl in the rapids near Grohman creek at great peril to himself.

## ASKS GRANT.

Nelson, Aug. 4.—At the last meeting of the city council City Clerk Wasson read a letter from the Salvation Army asking for exemption from taxes or a grant of money to the same amount. Mayor Selous said that this question came up every time a superior officer of the army happened to come to Nelson. One of the officers, a lady, interviewed him some time ago and explained that the army helped cases which the city was really responsible for and he had arranged that if a case of this kind came up the city would repay the army, in fact, he thought it had been done already and some railway fares paid. To assist as asked would be illegal, but the city could make the army its sinner when they could handle the case better than the city. The charity organization had so acted and the city recognized them. Moved by Ald. Wells, seconded by Ald. Rutherford, that the letter be filed.

Margaret Anglin, who appears here on Monday evening in "The Awakening of Helena Richie," last night tried out a new play in Seattle. She has no intention of using it this season. The play is "Shifting Sands," written by Miss H. M. Ingersoll, a newspaper woman and niece of the late Colonel Ingersoll. Miss Anglin is being sent another play which she will "try on the dog" in Spokane.

A great deal of interest is being taken in Miss Anglin's appearance at the Victoria theatre in the play in which she has been having such a noteworthy success since she put it on in New York last fall. There has been an excellent advance sale and this charming Canadian actress will be greeted by a large house.

We are being favored with visits from several of our own native-born just now. A little while ago we had Miss Isabelle Fletcher, of the Sanford Stock Company. To-night we have Harold Nelson. On Monday we have Margaret Anglin.

At the age of forty-eight Laura Jean Libby has gone on the stage, making her debut in a New York roof garden on Monday night last. Shades of the mighty! We will probably have impersonations of the tear-bedewed heroines of her half-hundred novels, "Lovers Once But Strangers Now," "When His Love Grew Cold" and all that rich of famous sentiment. Laura does not believe in writing her tight remains under a bushel. She is reported as saying that when a schoolgirl her teacher told her she would be either a great writer or great actress. But what are we left to understand? Has she failed as a great writer? Or does she think she is going to make good along both lines of her preceptor's prophecy? With all respect for Laura Jean's immense vogue in certain circles, and her fecundity as a composer of love-stories, she is not a great writer. And her appearance on the mimic stage will be a passing sensation of the dull season.

Charles Frohman has discovered a remarkable soprano in Mary Mackie, a young Canadian girl practically unknown to the theatrical world. He has given her the role of Chrysea, the beautiful singer in "The Arcadians."

## WITH THE ADVANCE MAN

Margaret Anglin.

Miss Margaret Anglin, the famous young Canadian actress, will undoubtedly be a great attraction at the Victoria theatre when she appears on Monday evening. Canadians appreciate the success of their countrywoman, and her popularity is ever on the increase. She has a strong individuality, and in her portrayal of Camille in Dumas' play she struck a different note to the usual conception of the character.

MISS MARGARET ANGLIN.

acter, making the heroine sweetly simple and sincere, wholly uncontaminated by her surroundings, contending that was the author's conception of the heroine.

Born in Ottawa in 1874, her father being then the speaker of the House of Commons, she was educated at Loretto Abbey, Toronto, and at the Convent of the Sacred Heart, Montreal. Her love for the stage early developed, and at seventeen she went to New York to study at the Empire School of Dramatic Acting, where she showed her unmistakable ability at two matinees given by the students. In 1894 she made her professional debut at the Academy of Music in New York, in Bronson Howard's successful play, "Shenandoah." A season of barnstorming and the careers, trials and troubles incident to one-night stands proved of value in giving her a deeper insight into certain phases of life, in increasing her repertoire, and in preparing her for her later successes.

In 1897 Miss Anglin, as the leading lady of James O'Neill's company, made a tour of the United States and Canada and did splendid work as Ophelia in "Hamlet," Virginia in "Virginia," Julie de Montmar in "Richefeu" and Mercedes in "Monte Cristo." The ease and simplicity of her acting and her versatility were again shown in her clever portrayal of Mrs. in "Lord Chumley," and she rendered even more absolute and secure her

place in the hearts of Canadians during her tour through the provinces.

She scored a brilliant triumph in "Mrs. Dane's Defence," and her later work shows a great broadening of her genius. The refinement and sweetness of her acting is a marked feature of her work. Miss Anglin is a brilliant musician, speaks French fluently in a charming manner and is a writer of case and grace.

The charm of "The Awakening of Helena Richie" is its great simplicity and its simplicity that creates opportunity for the tense scenes with which Miss Anglin is said to be provided and which she knows so well how to enact. Helena Richie left her husband for the reason that he was a drunkard and in a drunken frenzy had injured their child. She accepts the protection of Lloyd Pryor, believing his love would brighten her life. In Old Chester, the quaint old-fashioned village in Western Pennsylvania where the scenes of the play are laid, Helena is believed to be a widow, Pryor masquerading as her brother. A little orphan lad is brought into her life by Dr. Lavender, the famous old preacher of the village, and friend of the countryside. She grows to love the child. Her husband dies in Paris and she asks Pryor to marry her as he has promised. He refuses and Helena, realizing the shallowness of his nature, sends him out of her life. By a combination of circumstances William King, the village doctor, learns her secret, and successfully urges her to give up David, the child, thus acknowledging her unworthiness.

The play is in four acts and is said to be a delightful combination of laughter and tears, sunlight and shadow, with apparently plenty of opportunity for the exhibition of some remarkably good acting, with which the Margaret Anglin Company has been credited in New York city. The company supporting Miss Anglin includes Eugene Ormonde, Herbert Brown, John R. Crawford, Walter Howe, Eugene Shakespeare, Sally Williams, Raymond Hackett and Gertrude Swiggett.

Harold Nelson.

Harold Nelson, who appears in the stellar role of "Pierre of the Plains" at the Victoria to-night, is truly an actor who does things and, generally speaking, success attends his every effort. When there were few theatres in Canada and upper Washington that were worth while playing he pioneered with a small company of players who knew his worth as manager as well as artist. In due time eastern stars booked in, through channels paved as it were by Nelson.

With his finger constantly on the pulse of his early patrons and admirers for their desires in the amusement line, Mr. Nelson has selected a vehicle that is especially befitting his present tour. It is one of those natural, intensely interesting plays that serves to elevate the morals as well as electrify the auditor. Its drawing qualities are two-fold since the star is not only Canada's favorite delineator, but enacts a part that had its origin in Canada in the days of the early settlers.

Mr. Nelson's company comes intact from its long runs at San Francisco and Hollingham, where the boys spent the last six months. Miss Grace Johnston, California's beautiful young leading lady, will make her bow to Canadian audiences with the company. Her work as Jen in the try-outs given the play was capital and it is safe to say that her future in the histrionic realms will prosper of later. Bring her to a top-notch place. The tour, which is limited to ten weeks on account of pressing stock engagements for Mr. Nelson, will be under the direction of Gwynne G. Garrett.

New Grand Theatre.

Heading the New Grand theatre bill next week will be a new imported feature of international reputation in which The Fazio trio will present their mastery and difficult athletic sensation, with equilibrium as its particular feature. Among the many acts that have been produced under the title of equilibrium there has never before been one similar with three people working together, to this which takes the boards as the headline next week.

Next on the bill is Free Settler's Four, consisting of Jones, Pickett, Murray and Drury, who bring here new songs to be given in quartettes, solos and duets. The quartette of vocalists are the top-notchers of vocal vaudeville. They are all sweet singers, possessing voices developed under the highest and most cultured training, and there is a delight for all music lovers in this act.

Comedy, song, chatter and patter will run riot through the house on the appearance of Williams and Weston, who are among the liveliest singing and dancing comedians on any stage. Appearing as the German aristocrats, with styles of the latest Kaiser pattern.

Bell and Richards, a duo of songsters and general amusement makers, are to share in the public favor at the Grand, with an act mostly along musical lines and very enjoyable and clean all through.

The cycling peers of the stage world, Grey and Peters, will be seen in many comicallies and straight hard-working cyclist stunts. Having perfected many new novelty tricks that have not been staged until this tour, Grey and Peters claimed attention on their first Chicago appearance this season, and were snapped up at big money for the Sullivan and Conditine circuit at once, and will reach here Monday.

A new song for Thomas J. Price to sing with attractive illustrations, to be thrown on the curtain by aid of the spot light machine, and a series of moving pictures, which are built on the humorous plan, will form the other specialties on the big bill Mr. Jamieson has secured.

To-night is the final opportunity for heading Al Lawrence, for seeing the wonderful show of the Mayvilles, and to see Mary Ann Brown, McCormack

# "I WILLINGLY GIVE THIS TESTIMONIAL In Favor of 'FRUIT-A-TIVES' For The Benefit of Other Sufferers"

Spoken like a man! Mr. Paul Jones of Sarnia is proud to acknowledge the great debt he owes to this wonderful fruit medicine. He wants every sufferer in Canada to know what "Fruit-a-tives" did for him. His reward comes in the gratitude of those who take his advice, use "Fruit-a-tives," and cure themselves.

"Sarnia, Ont., Feb. 5th, 1910.  
"I have been a sufferer for the past 25 years with Constipation, Indigestion and Catarrh of the Stomach. I tried many remedies and many doctors, but derived no benefit whatever. Finally, I read an advertisement of "Fruit-a-tives," in which Hon. J. Costigan stated that he had been cured by "Fruit-a-tives." I decided to give "Fruit-a-tives" a trial and found they did exactly what was claimed for them. I have now taken them for some time and find they are the only remedy that does me good. I have recommended "Fruit-a-tives" to a great many of my friends, and I cannot praise these fruit tablets too highly, as they have done me good.

I claim "Fruit-a-tives" are invaluable in every respect, and I willingly give this testimonial for the benefit of other sufferers."

PAUL J. JONES.  
Mr. Jones is favorably known all over the district of Sarnia. He was in business there for years, and is now enjoying the fruits of a long and successful mercantile career. Every reader of this paper is at liberty to write Mr. Jones and find out for themselves that the above letter is genuine and was written to "Fruit-a-tives" voluntarily and solely with the idea of helping the sick.

The financial and social standing of those who have written letters in favor of "Fruit-a-tives" is the best guarantee that this famous fruit medicine is all that is claimed for it.

"Fruit-a-tives" is the only true liver stimulant in the world because it is the only medicine made of fruit juices. By its use, the amount of bile is increased while the muscles are made stronger and more capable of emptying the bowels naturally. Salts of every kind, and cheap purgative pills have no action on the liver. They do not increase the secretion of bile by the liver, but their action is entirely due to irritating the delicate lining of the bowels. "Fruit-a-tives" alone can and will positively cure Constipation, Biliousness and Torpid Liver. In the case of Mr. Jones, the long standing Constipation had affected his digestion, causing catarrh of the stomach. As his bowels became more regular, the digestion improved. When the Constipation was cured the Indigestion, which was caused by the Constipation, was cured also.

"Fruit-a-tives" has proved its value and has made its way solely on merit. "Fruit-a-tives" is probably the best known, and most highly appreciated medicine in Canada. The sales of "Fruit-a-tives" are enormous and are increasing every day. The people realize that at last they have one remedy that will positively do all that is claimed for it—and they show their appreciation of this honest, reliable fruit medicine by using it themselves and recommending it to their friends.

"Fruit-a-tives" is one of the few medicines that may be taken day after day with only benefit to the health. If necessary, "Fruit-a-tives" could be taken for twenty years, because it contains only fruit juices and tonics—nature's natural remedies for all Stomach, Liver, Bowel, Kidney and Skin Troubles. "Fruit-a-tives" is especially suited to women and children because of the pleasant taste and mild, gentle action of the fruit tablets.

If you are suffering as Mr. Jones did, take his advice and try "Fruit-a-tives." 50c. a box, 6 for \$2.50, or trial box, 25c. At all dealers or sent, postpaid, on receipt of price by Fruit-a-tives Limited, Ottawa.

## SYLVESTER'S HENFOOD FOR POULTRY.
